RISK FACTORS

The purchase of Securities may involve substantial risks and is suitable only for investors with the knowledge and experience in financial and business matters necessary to evaluate the risks and the merits of an investment in the Securities. Before making an investment decision, prospective purchasers of Securities should consider carefully, in the light of their own financial circumstances and investment objectives, all the information set forth in this Base Prospectus.

The assessment of risks associated with a particular Series of Securities may be different depending on various factors. In particular, the assessment of risk on a case-by-case basis may be different for investors.

Prospective purchasers of the Securities should recognise that the Securities may decline in value and should be prepared to sustain a total loss of their investment in the Securities.

Potential investors should consider two main categories of risks, I. "Risks relating to the Securities" which include 1. "General Risks relating to the Securities"; 2. "General Risks relating to Changes in Market Conditions"; and 3. "Risks relating to specific Product Categories", and II. "Risks relating to the Issuer":

A.I. Risks relating to the Securities

1. General Risks relating to the Securities

General

An investment in the Securities entails certain risks, which vary depending on the specification and type or structure of the Securities. An investment in the Securities is only suitable for potential investors who (i) have the requisite knowledge and experience in financial and business matters to evaluate the merits and risks of an investment in the Securities and the information contained in or incorporated by reference into this Base Prospectus or any applicable supplement hereto; (ii) have the requisite knowledge to evaluate such merits and risks in the context of the potential investor's particular financial situation and to evaluate the impact the Securities will have on its overall investment portfolio; (iii) understand thoroughly the terms and conditions of the relevant Securities and are familiar with the behaviour of the financial markets; (iv) are capable of bearing the economic risk of an investment in the Securities until the maturity of the Securities; and (v) recognise that it may not be possible to dispose of the Securities for a substantial period of time, if at all before maturity.

Interest Rate Risk

The interest rate risk is one of the central risks of interest-bearing Securities. The interest rate level on the money and capital markets may fluctuate on a daily basis and cause the value of the Securities to change on a daily basis. The interest rate risk is a result of the uncertainty with respect to future changes of the level of the current interest rate on the capital market (the "**Market Interest Rate**"). In particular, holders of Fixed Rate Securities are exposed to an interest rate risk that could result in a diminution in value if the level of the Market Interest Rate increases. In general, the effects of this risk increase as the Market Interest Rates increase.

Currency Risk

A holder of a Security denominated in a foreign currency is exposed to the risk of changes in currency exchange rates which may affect the yield and/or the redemption amount of such Securities. A change in the value of any foreign currency in which the Security is denominated against the Euro, for example, will result in a corresponding change in the Euro value of a Security denominated in a currency other than Euro. If the exchange rate falls and the value of the Euro correspondingly rises, the price of the Security and the value of interest and principal payments made thereunder expressed in Euro falls.

Credit Risk

Any person who purchases the Securities is relying upon the creditworthiness of the Issuer and has no rights against any other person. Holders of Securities (each a "**Holder**" and, together, the "**Holders**") are subject to the risk of a partial or total failure of the Issuer to make interest and/or redemption payments that the Issuer is obliged to make under the Securities. The worse the creditworthiness of the Issuer, the higher the risk of loss.

Spread Risk

Spread risk is defined as risk that quotations of financial instruments deviate more or less from the general market. Hence, spreads combine components that reflect creditworthiness as well as liquidity aspects. The spread is the margin, which the Issuer pays the investor for taking a risk ("**Spread**"). Spreads are added as margins to the current interest rate (without risk).

Factors influencing the Spread include, among other things, the creditworthiness and rating of the Issuer, in the case of Pfandbriefe, the value of assets in the cover pool, probability of default, recovery rate and the remaining term to maturity of the Security. The liquidity situation, the general level of interest rates, overall economic developments, and the currency, in which the relevant obligation is, denominated may also have a negative effect.

Holders are exposed to the risk that the Spread widens which results in a decrease in the price of the Securities.

Rating of the Securities

A rating of Securities, if any, may not adequately reflect all risks of the investment in such Securities. Equally, ratings may be suspended, downgraded or withdrawn. Such suspension, downgrading or withdrawal may have an adverse effect on the market value and trading price of the Securities. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by a rating agency at any time.

Reinvestment Risk

Holders may be exposed to risks connected to the reinvestment of interest income or redemption proceeds received from a Security. The return the Holder will receive from a Security depends not only on the price and the interest rate of the Security but also on whether or not the interest received during the term of the Security can be reinvested at least at the same interest rate than the interest rate provided for in the Security. The risk that the general Market Interest Rate falls below the interest rate of the Security during its term is generally called reinvestment risk. The extent of the reinvestment risk depends on the individual features of the relevant Security.

Inflation Risk

The inflation risk is the risk of future money depreciation. The real yield from an investment is reduced by inflation. The higher the rate of inflation, the lower the real yield on a Security. If the inflation rate is equal to or higher than the nominal yield, the real yield is zero or even negative.

Purchase on Credit – Debt Financing

If a loan is used to finance the acquisition of the Securities by a Holder and the Securities subsequently go into default, or if the trading price diminishes significantly, the Holder may not only have to face a potential loss on its investment, but it will also have to repay the loan and pay interest thereon. A loan may significantly increase the risk of a loss. Potential investors should not assume that they will at all times be able to repay the loan or pay interest thereon. Instead, potential investors should assess their financial situation prior to an investment, as to whether they are able to pay interest on the loan, repay the loan on demand, and contemplate that they may suffer losses.

Transaction Costs/Charges

When Securities are purchased or sold, several types of ancillary costs (including transaction fees and commissions) are incurred in addition to the purchase or sale price of the Security. These ancillary costs may significantly reduce or eliminate any profit from holding the Securities. Credit institutions as a rule charge commissions which are either fixed minimum commissions or pro-rata commissions, depending on the order value. To the extent that additional – domestic or foreign – parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, Holders may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs).

Change of Law

The Terms and Conditions of the Securities will be governed by German law. No assurance can be given as to the impact of any possible judicial decision or change to German law (or law applicable in Germany), or administrative practice after the date of this Base Prospectus.

Taxation

Potential investors should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Securities are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for innovative financial instruments. Potential investors are advised not to rely upon the tax section contained in this Base Prospectus but to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, sale and redemption of the Securities. Only these advisors are in a position to duly consider the specific situation of the potential investor. The afore-mentioned individual tax treatment of the Securities with regard to any potential investor may have an adverse impact on the return which any such potential investor may receive under the Securities.

No Gross-Up of the Pfandbriefe

All payments made by the Issuer in respect of the Pfandbriefe shall be made subject to any tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted. Holders will not be entitled to receive grossed-up amounts to compensate for any such tax, duty, withholding or other payment. Hence, any such deduction will decrease the return on the Pfandbriefe.

Independent Review and Advice

Each potential investor must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Securities is fully consistent with its (or if it is acquiring the Securities in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether acquiring the Securities as principal or in a fiduciary capacity) and is a fit, proper and suitable investment for it (or if it is acquiring the Securities in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the Securities. The Issuer disclaims any responsibility to advise potential investors of any matters arising under the law of the country in which they reside that may affect the purchase of, or holding of, or the receipt of payments or deliveries on the Securities. If a potential investor does not inform itself in an appropriate manner with regard to an investment in the Securities, the investor risks disadvantages in the context of its investment.

Settlement via the Clearing System

Securities issued under the Programme may be represented by one or more Global Note(s). Such Global Note(s) will be deposited with Clearstream Banking AG, Frankfurt am Main ("**CBF**") or with a common depository for Euroclear Bank SA/NV ("**Euroclear**") and Clearstream Banking S.A., Luxembourg ("**CBL**", and together with CBF and Euroclear, the "**Clearing System**"). Holders will not be entitled to receive definitive Securities. While the Securities are represented by one or more Global Note(s) Holders will be able to trade their beneficial interests only through the relevant Clearing System.

While the Securities are represented by one or more Global Note(s), the Issuer will discharge its payment obligations under the Securities by making payments to the relevant Clearing System for distribution to its account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of the relevant Clearing System to receive payments under the relevant Securities. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Note(s).

Expansion of the Spread between Bid and Offer Prices

In special market situations, where the Issuer is completely unable to conclude hedging transactions, or where such transactions are very difficult to conclude, the spread between the bid and offer prices which may be quoted by the Issuer may be temporarily expanded, in order to limit the economic risks to the Issuer. Thus, Holders selling their Securities on a stock exchange or on the over-the-counter market may be doing so at a price that is substantially lower than the actual value of the Securities at the time of sale.

Early Redemption of the Pfandbriefe

The Terms and Conditions of the Pfandbriefe do not provide for any right of early redemption. Hence, Holders have no right to demand early redemption of the Pfandbriefe during the term of the Pfandbriefe. The realisation of any economic value in the Pfandbriefe (or portion thereof) is only possible by way of their sale (see also below under "Market Value of Securities").

Early Redemption of the Notes

The Issuer may have the right to call the Notes prior to maturity for reasons of taxation. In the event that the Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of Germany, or any political subdivision or taxing authority thereto or therein affecting taxation or the obligation to pay duties of any kind, or any change in, or amendment to, an official interpretation or application of such laws or regulations, which amendment or change is effective on or after the date on which the last tranche of the relevant series of Notes was issued, the Issuer may redeem all outstanding Notes in accordance with the Terms and Conditions. If the Issuer redeems any Note prior to maturity, an investor may not be able to reinvest the redemption proceeds resulting from the early redemption amount in a comparable instrument at an effective interest rate as high as that of the relevant Notes, if interest is paid on the Notes, and a holder of such Note is exposed to the risk that due to early redemption his investment may have a lower than expected yield.

Risks relating to the applicability of the German Bond Act (*Gesetz über Schuldverschreibungen aus Gesamtemissionen*) (Not applicable with regard to Pfandbriefe)

The Final Terms of a Tranche of Notes may provide for the applicability of the German Bond Act. In the case that, pursuant to the Final Terms, §§ 5 – 22 of the Bond Act are applicable, the Terms and Conditions may be amended and/or a Holder's joint representative may be appointed even against the will of a Holder. In such a case, a Holder is subject to the risk of being outvoted by a majority resolution of the Holders. Since such a majority resolution is binding on all Holders, certain rights of such Holder against the Issuer under the Terms and Conditions may be amended or reduced or even cancelled against the will of such Holder. If the Final Terms of a Tranche of Notes provide for the appointment of a Holders' joint representative, either in the Terms and Conditions or by a majority resolution of the Holders, it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, such right passing to the Holders' joint representative who is then exclusively responsible to claim and enforce the rights of all Holders.

Risks relating to regulatory Bail-in Tool and other Resolution Measures (Not directly applicable with regard to Pfandbriefe)

On 15 May 2014, Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms was adopted (the "Bank Recovery and Resolution Directive" or the "**BRRD**") which was implemented into German law by the Recovery and Resolution Act (*Sanierungs- und Abwicklungsgesetz*, or the "**SAG**").

For banks established in the eurozone, such as the Issuer (as being part of the significant supervised group relating to ING Group N.V.), which are supervised within the framework of the Single Supervisory Mechanism (the "**SSM**"), Regulation (EU) No 806/2014 of the European Parliament and of the Council (the "**SRM Regulation**") provides for a coherent application of the resolution rules across the SSM under responsibility of the European Single Resolution Board (referred to as the "**Single Resolution Mechanism**" or "**SRM**"). Under the SRM, the Single Resolution Board is responsible for adopting resolution decisions in close cooperation with the European Central Bank, the European Commission, and national resolution authorities (such as, originally, the German Federal Financial Market Stabilisation Authority (*Bundesanstalt für Finanzmarktstabilisierung* – "**FMSA**"), which was functioning as national resolution authority in Germany between 2015 and 2017 and now forms an independently operating business unit of the Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht* - "**BaFin**")) in the event that a significant supervised entity directly supervised by the European Central Bank, such as the Issuer, is failing or likely to fail and certain other conditions are met. National resolution authorities in the European Union member states concerned would implement such resolution decisions adopted by the Single Resolution Board in accordance with the powers conferred on them under national law transposing the BRRD.

If the Issuer is determined by the competent authority to be failing or likely to fail and certain other conditions are met (as set forth in the SRM Regulation, the SAG and other applicable rules and regulations), the competent resolution authority has the power to write down, including to write down to zero, claims for payment of the principal, interest or any other amount in respect of the Notes, to convert the Notes into ordinary shares or other instruments constituting common equity tier 1 capital (the write-down and conversion powers are hereinafter referred to as the "**Bail-in Tool**"), or to apply any other resolution measure including, but not limited to, any transfer of the obligations under the Notes to another entity, the amendment of the terms and conditions of the Notes (including, but not limited to, the variation of maturity of the Notes) or the cancellation of the Notes. The Bail-in tool and each of these other resolution measures are hereinafter referred to as a "**Resolution Measure**". The competent resolution authority may apply Resolution Measures individually or in any combination. The competent resolution authority will have to exercise the Bail-in Tool in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments, tier 2 capital instruments and other subordinated liabilities) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with the hierarchy of claims in normal insolvency proceedings. In this context, it should be noted that the European Commission published an extensive package of reforms to prudential standards proposing amendments to the framework applicable to financial institutions on 23 November 2016 (the "**Banking Reform Package**"), proposing to amend – amongst others – the BRRD. With regard to the ranking of unsecured debt instruments in insolvency hierarchy, the European legislator opted in favour of a fast-track procedure and respective changes to Section 46f of the German Banking Act (*Kreditwesengesetz*, the "**KWG**") have entered into force in July 2018.

According to the revised version of Section 46f (5)-(7) KWG, certain unsecured and unsubordinated debt instruments (hereinafter referred to as "**Non-Preferred Senior Obligations**") rank below other senior liabilities (hereinafter referred to as "**Preferred Senior Obligations**") in insolvency or in the event of the imposition of Resolution Measures, such as the Bail-in Tool. Non-Preferred Senior Obligations continue to rank above contractually subordinated liabilities. This order of priority applies

in a German insolvency proceeding or in the event of the imposition of Resolution Measures with the respect to the Issuer with effect for any senior unsecured debt instruments outstanding at this time. Requirements that obligations have to fulfil to be classified as Non-Preferred Senior Obligations are, in particular (i) a contractual minimum term of one year and (ii) the explicit reference in the terms and conditions that such obligations have a lower ranking in insolvency. In case the respective terms and conditions do not contain such reference, the obligations qualify as Senior Preferred Obligations. Non-Preferred Senior Obligations issued before entering into force of the new provisions (i.e. before 21 July 2019) maintain their (non-preferred) ranking. In February 2019, BaFin published a revised draft of its former interpretative guide on the classification of certain liabilities under Section 46f (5)-(7) KWG.

Holders are bound by any Resolution Measure. Depending on the Resolution Measure, there would be no obligation of the Issuer to make payments under the Notes. The extent to which payment obligations under the Notes may be subject to Resolution Measures will depend on a number of factors that are outside the Issuer's control, and it will be difficult to predict when, if at all, Resolution Measures will occur. The exercise of any Resolution Measure would in particular not constitute any right of a Holder to terminate the Notes. Potential investors should consider the risk that they may lose all or part of their investment, including the principal amount plus any accrued interest, if Resolution Measures are initiated, and should be aware that extraordinary public financial support for troubled banks, if any, would only potentially be used as a last resort after having assessed and exploited, to the maximum extent practicable, the Resolution Measures, including the Bail-in Tool.

With respect to other aspects of the Banking Reform Package such as the revision of the BRRD with regard to the existing minimum requirement for own funds and eligible liabilities ("MREL") regime final agreement has been found in the European Parliament and the Council in late 2018. On 15 February 2019, the compromise text has been adopted by the Committee of Permanent Representatives. On 16 April 2019, the European Parliament has approved the Banking Reform Package. Accordingly, it is likely that the Banking Reform Package, once published in the Official Journal of the European Union and in force or implemented, as the case may be, will make it more difficult for the Issuer to fulfill its capital and other regulatory requirements and that the new provisions will result in further restrictions and limitations for the Issuer.

2. General Risks relating to Changes in Market Conditions

Market Illiquidity

There can be no assurance as to how the Securities will trade in the secondary market or whether such market will be liquid or illiquid or that there will be a market at all. If the Securities are not traded on any securities exchange, pricing information for the Securities may be more difficult to obtain and the liquidity and market prices of the Securities may be adversely affected. The liquidity of the Securities may also be affected by restrictions on offers and sales of the securities in some jurisdictions. The more limited the secondary market is, the more difficult it may be for the Holders to realise the market value of the Securities prior to the exercise, expiration or maturity date.

Sale of the Securities is contingent on the availability of market participants willing to purchase the Securities at a commensurate price. If no such willing purchasers are available, the value of the Securities cannot be realised. The issue of the Securities entails no obligation on the part of the Issuer *vis-à-vis* the Holders to ensure market equilibrium or to repurchase the Securities.

Market Value of Securities

The market value of Securities may be negatively affected by a number of factors including, but not limited to, market interest and yield rates, market liquidity, the quality of the cover pool and the remaining term of the Securities.

The market value of Securities also depends on a number of interrelated factors, including economic, financial and political events in Germany or elsewhere, including factors affecting capital markets generally.

Market Price Risk – Historic Performance

The historic price of a Security should not be taken as an indicator of future performance of such Security. It is not foreseeable whether the market price of a Security will rise or fall. The Issuer gives no guarantee that the spread between purchase and selling prices is within a certain range or remains constant.

3. Risks relating to specific Product Categories

Fixed Rate Securities

A holder of a Fixed Rate Security is exposed to the risk that the price of such Security falls as a result of changes in the Market Interest Rate. While the nominal interest rate of a Fixed Rate Security is fixed during the life of such Security, the Market Interest Rate typically changes on a daily basis. As the Market Interest Rate changes, the price of a Fixed Rate Security also changes, but in the opposite direction. If the Market Interest Rate increases, the price of a Fixed Rate Security typically falls, until the yield of such Security is approximately equal to the Market Interest Rate. If the Market Interest Rate falls, the price of a Fixed Rate Security typically increases, until the yield of such Security is approximately equal to the Market Interest Rate. Changes in the Market Interest Rate are in particular relevant for Holders who wish to sell the Securities prior to the maturity date of the Securities.

Floating Rate Securities

A holder of a Floating Rate Security is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the yield of Floating Rate Securities in advance and holders of Floating Rate Securities cannot compare their return on investment with that of investments with fixed interest rates. If the Terms and Conditions of the Securities provide for frequent interest payment dates, investors are exposed to reinvestment risk if Market Interest Rates decline. That is, investors may only be able to reinvest the interest income paid to them at a relevant lower interest rate than prevailing (see also above under "**Reinvestment Risk**").

Benchmarks such as the London Interbank Offered Rate ("**LIBOR**") and the Euro Interbank Offered Rate ("**EURIBOR**") and other indices which are deemed "benchmarks" (each a "**Benchmark**" and together, the "**Benchmarks**"), to which the interest of notes bearing or paying a floating or other variable rate of interest may be linked to, have become the subject of regulatory scrutiny and recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause the relevant benchmarks to perform differently than in the past, or have other consequences which may have a material adverse effect on the value of and the amount payable under Securities bearing or paying a floating or other variable rate of interest.

International proposals for reform of Benchmarks include the Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "**Benchmark Regulation**") which is fully applicable since 1 January 2018. In addition, there are numerous other proposals, initiatives and investigations which may impact Benchmarks.

As at the date of this Base Prospectus, only the administrator of the LIBOR, the ICE Benchmark Administration Limited ("**IBA**"), appears on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of the Benchmark Regulation. As at the date of this Base Prospectus, the European Money Markets Institute ("**EMMI**"), the administrator of the EURIBOR, does not appear on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the Benchmark Regulation. As far as the Issuer is aware, the transitional provisions in Article 51 of the Benchmark Regulation apply, such that EMMI is not currently required to obtain authorisation or registration (or, if located outside the European Union, recognition, endorsement or equivalence).

Any changes to a Benchmark as a result of the Benchmark Regulation or other initiatives, could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain Benchmarks, trigger changes in the rules or methodologies used in certain Benchmarks or lead to the disappearance of certain Benchmarks. Although it is uncertain whether or to what extent any of the abovementioned changes and/or any further changes in the administration or method of determining a Benchmark could affect the level of the published rate, including to cause it to be lower and/or more volatile than it would otherwise be, and/or could have an effect on the value of any Notes whose interest or principal return is linked to the relevant Benchmark, investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value of and the amount payable under the Securities whose rate of interest or principal return is linked to a Benchmark (including, but not limited to, Floating Rate Securities).

Benchmarks could also be discontinued entirely. For example, on 27 July 2017, the United Kingdom Financial Conduct Authority (FCA) announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021. If a Benchmark were to be discontinued or otherwise unavailable, the rate of interest for Floating Rate Securities which are linked to such Benchmark will be determined for the relevant period by the fall-back provisions applicable to such Securities, which in the end could result in the same rate being applied until maturity of the Floating Rate Securities, effectively turning the floating rate of interest into a fixed rate of interest. Any of the foregoing could have a material adverse effect on the value or liquidity of, and the amounts payable on Floating Rate Securities whose rate of interest is linked to a discontinued Benchmark.

Zero Coupon Securities

Zero Coupon Securities do not pay current interest but are typically issued at a discount from their nominal value. Instead of periodical interest payments, the difference between the redemption price and the issue price constitutes interest income until maturity and reflects the Market Interest Rate. A holder of a Zero Coupon Security is exposed to the risk that the price of such Security falls as a result of changes in the Market Interest Rate. Prices of Zero Coupon Securities are more volatile than prices of Fixed Rate Securities and are likely to respond to a greater degree to Market Interest Rate changes than interest bearing Securities with a similar maturity.

Green Bonds

The Final Terms relating to any specific Tranche of Securities may provide that it will be the Issuer's intention to apply the proceeds from an offer of those Securities specifically for projects and activities that promote climate-friendly and other environmental purposes (the "**Green Projects**"). Prospective investors should have regard to the information set out in the relevant Final Terms regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Securities together with any other investigation such investor deems necessary. In particular, no assurance is given by the Issuer that the use of such proceeds for any Green Projects will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any Green Projects. Furthermore, it should be noted that there is currently no clearly defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "green" or "sustainable" or an equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as "green" or "sustainable" or such other equivalent label nor can any assurance be given that such a clear definition or consensus will develop over time. Accordingly, no assurance is or can be given to investors that any Green Projects will meet any or all investor expectations regarding such "green", "sustainable" or other equivalently-labelled performance objectives or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Green Projects.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Securities and in particular with any Green Projects to fulfil any environmental, sustainability, social and/or other criteria. For the avoidance of doubt, any such opinion or certification is not, nor shall it be deemed to be, incorporated in and/or form part of this Base Prospectus. Any such opinion or certification is not, nor should it be deemed to be, a recommendation by the Issuer or any other person to buy, sell or hold any such Securities. Any such opinion or certification is only current as of the date that opinion was initially issued. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in such Securities. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight.

In the event that any such Securities are listed or admitted to trading on any dedicated "green", "environmental", "sustainable" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any Green Projects. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuer or any other person that any such listing or admission to trading will be obtained in respect of any such Securities or, if obtained, that any such listing or admission to trading will be maintained during the life of the Securities.

Nor can there be any assurance that such Green Projects will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer. Any such event or failure by the Issuer will not constitute an Event of Default under the Securities.

Any such event or failure to apply the proceeds of any issue of Securities for any Green Projects as aforesaid and/or withdrawal of any such opinion or certification or any such opinion or certification attesting that the Issuer is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any such Securities no longer being listed or admitted to trading on any stock exchange or securities market as aforesaid may have a material adverse effect on the value of such Securities and also potentially the value of any other Securities which are intended to finance Green Projects and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

A.II. Risks relating to the Issuer

The business strategy of ING-DiBa AG (the "**Issuer**") generally entails risk factors that may affect the ability to fulfil its obligations, such as the obligations arising under the Securities. The Issuer distinguishes four broad risk types:

- (i) market price risk;
- (ii) liquidity risk;
- (iii) counterparty default risk; and
- (iv) operational risk.

In addition due to its activities, the Issuer is exposed to risk concentrations and combinations of the above mentioned risks.

Market Price Risk

Market price risk is the risk of potential loss due to adverse changes of market prices, e.g. of bonds, or of underlying market parameters affecting market prices, such as interest rates, spreads, exchange rates and volatilities which may negatively affect the Issuer's earnings, economic value, or the market value of the Issuer's portfolio of marketable assets.

Interest rate risk in the banking book (*Bankbuch*), basis risk, spread risk and currency risk (also foreign exchange rate risk) are the major sources of market price risk for the Issuer.

The risk of changing interest rates consists of the potential loss resulting from a change in the risk-free interest rate and may adversely affect the net interest income, the economic value and the market value of the marketable assets of the Issuer (interest rate risk). Potential losses may also result from changes in the relevant basis swaps (basis risk).

The economic value of the Issuer and the market value of the marketable assets may also be affected by changes in the market value of financial instruments, e.g. bonds and registered notes that cannot be explained by changes in the general market, e.g. due to changes in the relevant swap rates or due to events (spread risk). Therefore, the Issuer considers this risk to be a residual risk.

Changes in foreign currency exchange rates, particularly the EUR/USD rate, may adversely impact the value of a position (currency risk).

Investors should be aware of the fact that market parameters and prices may change at any time and are not predictable.

The Issuer is not materially exposed to risks resulting from holding shares and equity positions or to commodities risk.

Change of market parameters may negatively influence the periodicals results as well as the net present value of the Issuer's portfolio.

Volatility risks currently arise from implicit options: the risk of changes in customer behavior (e.g. unscheduled repayments on mortgage loans and installment loans or withdrawal behavior with extra accounts) due to market fluctuations.

Liquidity Risk

Liquidity risk is defined as the risk of failing to meet present or future payment obligations on the specified date (liquidity risk in the narrow sense). The Issuer's principal financing source is customer deposits which may be withdrawn on short call. Due to its business model, the Issuer's

assets as a rule are less liquid than its liabilities. Hence, the outflow of deposits is a major source of liquidity risk for the Issuer. Other potential sources include a lack of mortgage prepayments, a higher utilization of facilities, higher collateral requirements, and defaults.

Liquidity risk also comprises the risk of failing to sell marketable assets at fair market value due to a lack of liquidity in the market (market liquidity risk) and the potential losses as a result of the increase in the cost of refinancing funds.

Furthermore, liquidity risk comprises the intraday liquidity risk as well as the liquidity risk in foreign currency. Intraday liquidity risk is defined as the risk of failing to meet payment obligations at the specified time on a given date (including in foreign currencies). The liquidity risk in foreign currency is defined as the risk failing to obtain the necessary currencies on the market. Liquidity transformation risk describes the potential loss of earnings resulting from the deterioration in refinancing conditions for retail deposits, which is not attributable to the materialisation of interest rate risks.

Counterparty Default Risk

The Issuer defines counterparty default risk as the risk of potential loss which can arise due to changes in credit rating, impending illiquidity, or even insolvency of a business partner. Counterparty default risk is substantiated as follows:

Default and migration risks constitute the risk of a loss due to the non-repayment of capital loaned to the borrower. Additionally changes in credit rating can lead to a loss. This is the traditional credit risk in the retail and wholesale banking businesses. In the institutional business, it can be further differentiated as issuer or counterparty credit risk and settlement risk.

Issuer and counterparty credit risk includes potential losses in value resulting from the default of a contractual partner or the deterioration of their credit rating. In association with this, there are risks for unrealized gains on executory contracts. This risk is also called the replacement risk. It relates to the additional expense of entering into a new contract to replace the lost business.

Settlement risk constitutes the risk that a contractual partner does not fulfil its end of a contract after the Issuer has already met its obligations or the compensatory payment is not made in cases where both parties' deliveries are to be offset.

Collateral and residual value risk is defined as the risk that the assumed value of collaterals, cannot be realized in case of liquidation.

Country risks are understood as potential losses that arise despite the debtor's solvency and willingness to pay due to overriding government impediments (transfer risk).

Operational Risk

Operational risk is defined as the risk of financial loss through external influence (criminal acts, natural disasters, etc.) or through internal factors (e.g., failure of IT systems, fraud, human error, faulty processes, structural weaknesses, insufficient monitoring). This definition also includes legal risks resulting from contractual agreements or the legal environment.

Risk Concentration

In accordance with the business strategy the Issuer has deliberately decided to take certain concentrations on product level in the retail business. Based on its business model the Issuer has certain concentrations with regards to liquidity risk management by focusing on retail savings deposits as their main refinancing instrument.

In the institutional business and in wholesale banking, concentrations on selected clients, industries, and asset classes are accepted intentionally. They are accepted against the background of the sizes specified and target customers defined under the strategic business orientation and are

monitored regularly.

With respect to the institutional business, which includes the Issuer's fixed income investments, mainly government or government-related bonds, covered bonds and Pfandbriefe, as well as its short-term liquidity management operations (e.g. securities financing transactions), investments in selected countries of the European Union play the most important role, with a focus on the Netherlands and Germany. In addition, the Issuer invests to a limited extent in corporate bonds and securitisations such as Asset Backed Securities ("**ABS**") and Mortgage Backed Securities ("**MBS**").

The wholesale banking activities include the provision of financing and tailored financing solutions to globally operating corporates with a solid creditworthiness and specialised financing forms for international customers, including loans covered by governmental export credit agencies (ECA-covered loans) as well as the financing of national and international infrastructural projects.

However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Securities is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date and 60 days after the date of the allotment of the relevant Tranche.

Prohibition of sales to EEA Retail Investors

If the Final Terms in respect of any Securities include a legend entitled "Prohibition of Sale to EEA Retail Investors", the Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II") or; (ii) a customer within the meaning of Directive 2016/97/EU (the "Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended or superseded, the "PRIIPs Regulation") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

MIFID II product governance / target market

The Final Terms in respect of any Securities may include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Securities and which channels for distribution of the Securities are appropriate. Any person subsequently offering, selling or

recommending the Securities (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Securities is a manufacturer in respect of such Securities, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

B. Description of the Securities

General

The following description is an abstract presentation of the following possible structures of the Securities to be issued under the terms of this Base Prospectus and does not refer to a specific issue of Securities which will be issued under the terms of this Base Prospectus.

Potential investors should note that information relating to a specific issue of Securities that is not yet known at the date of this Base Prospectus, including, but not limited to, the issue price, the date of the issue, the level of the interest rate (if the Securities bear interest), the type of interest payable (if the Securities bear interest), the maturity date and other details significantly affecting the economic assessment of the Securities is not contained in this section of this Base Prospectus but in the relevant Final Terms. Consequently, the following description does not contain all information relating to the Securities. Any investment decision by an investor should therefore be made only on the basis of full information on the Issuer and on the Securities to be offered which is set out in this Base Prospectus and the relevant Final Terms for such Securities when read together with this Base Prospectus and any supplement hereto.

Issue price of the Securities

The Securities will be offered on the basis of an issue price as determined by the Issuer and as set out in the relevant Final Terms. The relevant issue price will be determined on the basis of various factors, including but not limited to, the rating of the Securities and the Issuer, if any, the term of the Securities, the interest rate applicable to the Securities and current market conditions, such as current market interest rates.

Issue date of the Securities

The issue date of each Tranche of Securities will be determined by the Issuer and the relevant Dealer(s) and specified in the relevant Final Terms.

Yield of Fixed Rate Securities

The yield with regard to Fixed Rate Securities will be set out in the relevant Final Terms (PART II.).

Interest on the Securities

The Programme provides for the issue of Securities with a fixed rate of interest (*Fixed Rate Securities*), Securities with a floating rate of interest (*Floating Rate Securities*) and Securities with no periodic payment of interest (*Zero Coupon Securities*).

Securities with a fixed rate of interest (Fixed Rate Securities)

In the case of Securities with a fixed rate of interest (the "**Fixed Rate Securities**"), the rate of interest on the basis of which periodic interest payments are calculated will be specified before the issue date of the Securities.

Securities with a floating rate of interest (Floating Rate Securities)

In the case of Securities with a floating rate of interest (the "**Floating Rate Securities**"), the interest rate on the basis of which the amount of interest payable to the Holders is calculated is not specified at

the issue date of the Securities. Instead, the rate at which interest accrues changes over time and only the relevant variable on which the rate of interest on the Securities is based (the "**Reference Rate**") is specified. The Reference Rate may be either the EURIBOR[®] or the LIBOR[®]. Euro Interbank Offered Rate (EURIBOR[®]) is a daily interest rate at which Eurozone banks offer to lend unsecured funds to other banks for a term of 1 week and on a monthly basis for a term of 1 month, 3, 6 and 12 months. As of 3 December 2018, the administrator of the EURIBOR[®] ceased the determination of the 2 weeks, 2 and 9 months EURIBOR[®] rate. London Interbank Offered Rate (LIBOR[®]) is an interest rate at which banks in the London market offer to lend unsecured funds to other banks in the London market to be determined on a daily basis for a term of 1 week and on a monthly basis for a term of 1 month, 2, 3, 6 and 12 months. Each Reference Rate reflects the normal terms currently applying on the capital market for raising funds in the form of debt capital for the relevant period of weeks or months.

Floating Rate Securities are linked to a Reference Rate and may be structured in accordance with the following variants: (i) the relevant Reference Rate represents the rate of interest applicable to the Securities on a one to one basis or (ii) a fixed rate of interest (margin) is added (premium) to the relevant Reference Rate depending on the credit rating of the Issuer, the maturity of the Securities and the interest rates currently applying on the capital market for raising debt capital, i.e. the relevant Reference Rate and the premium together produce the rate of interest applicable to the Securities or (iii) a fixed rate of interest (margin) is deducted (discount) from the relevant Reference Rate depending on the maturity of the Securities and the interest rates currently applying on the capital market for raising debt capital, i.e. the relevant Reference Rate after deducting the discount produces the rate of interest applicable to the Securities or (iv) the rate of interest based on the relevant Reference Rate is limited to a lower minimum interest rate determined in advance (minimum interest), i.e. even if the relevant Reference Rate were to be lower than the minimum interest rate, the minimum interest rate would be applicable to the Securities for the relevant interest period.

Securities with no periodic payment of interest (Zero Coupon Securities)

In the case of Securities with no periodic payment of interest (the "**Zero Coupon Securities**"), the interest accrued takes the exclusive form of the redemption of the Zero Coupon Securities at maturity at a higher amount than the issue price. The Holder of Zero Coupon Securities therefore receives "interest" as a one-time payment at maturity in the form of a redemption amount that is higher than the issue price. No periodic interest payments are made during the term of the Zero Coupon Securities.

Due dates for interest payments and calculation of the amount of interest (except for Zero Coupon Securities)

Interest payments may be made monthly, quarterly, semi-annually or annually. The amount of interest payable in respect of the Securities is calculated by applying the relevant interest rate for the interest period concerned and the day count fraction to the par value of the Securities.

Redemption of the Securities at maturity

Securities issued under the terms of this Base Prospectus have a maturity which is determined at the issue date. Prior to the issue date of the Securities, the Issuer determines the maturity date on which it is obliged to redeem the Securities and the amount at which it is obliged to redeem them.

Early redemption of the Securities

The Pfandbriefe do not provide for any call and/or put rights.

The Notes may be redeemed early at the option of a Holder upon the occurrence of an event of default.

Notes can further be redeemed early at the option of the Issuer upon the occurrence of a tax event.

Repurchase

Notwithstanding the provisions governing the redemption of the Securities, the Issuer is entitled to purchase all or some of the Securities at any time and at any price in the market or otherwise and to hold, cancel or resell them at its discretion.

Minimum denomination of the Securities

Securities issued under this Prospectus will be issued with a minimum specified denomination of Euro 100,000 or its equivalent in other currencies.

Currency of the Securities

Securities will be issued in such currency as may be determined by the Issuer and the relevant Dealer(s) and as specified in the applicable Final Terms, subject to applicable currency restrictions.

Status and ranking of the Securities

The obligations under the Notes constitute unsecured and unsubordinated obligations of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer unless such other obligations take priority by mandatory provisions of law.

The obligations under the Pfandbriefe constitute unsubordinated obligations of the Issuer ranking *pari passu* among themselves. The Pfandbriefe are covered in accordance with the German Pfandbrief Act (*Pfandbriefgesetz*) and rank at least *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer under mortgage covered Pfandbriefe (*Hypothekendarbriefe*).

Form of notes of the Securities

The Securities are represented by the issue of one or more global note(s) in bearer form. Definitive notes will not be issued by the Issuer.

Issue of further Securities

The Issuer reserves the right to issue further Securities with the same terms without the consent of the Holders in such a way that they will be consolidated with the Securities issued previously, form a uniform series with them and increase their total par value.

Substitution of the Issuer under the Notes

A subsidiary of the Issuer may replace ING-DiBa AG in its capacity as Issuer at any time and without the consent of the Holders with respect to all rights and obligations arising under or in connection with the Notes provided that the Issuer is not in default with any payment of principal and/or interest in respect of the Notes and the Issuer irrevocably and unconditionally guarantees in favour of each Holder the payment of all sums payable by the substitute debtor in respect of the Notes.

Application of German Bond Act (Schuldverschreibungsgesetz)

The Issuer may determine that §§ 5 – 22 of the German Bond Act (*Schuldverschreibungsgesetz*) are applicable to the Notes. On such basis, the Issuer may determine a Holder's representative or Holders may initiate the appointment of such representative.

Governing law, place of performance, jurisdiction and limitation period

The Securities, as to form and content, and all rights and obligations of the Holders and the Issuer, shall be governed by German law. Place of performance shall be Frankfurt am Main.

The relevant prescription period for the limitation of claims arising from the Securities is ten years.

(I) Der Referenzsatz soll durch den Referenzsatz ersetzt werden, der durch den Administrator des Referenzsatzes, die zuständige Zentralbank oder eine Regulierungs- oder Aufsichtsbehörde als Nachfolge-Zinssatz für den Referenzsatz für die Laufzeit des Referenzsatzes bekannt gegeben wird und der in Übereinstimmung mit geltendem Recht genutzt werden darf; oder (wenn ein solcher Nachfolge-Zinssatz nicht bestimmt werden kann)

(III) der Referenzsatz soll durch einen Satz ersetzt werden, der von der Berechnungsstelle nach billigem Ermessen unter Berücksichtigung der Laufzeit des Referenzsatzes und der jeweiligen Währung in wirtschaftlich vertretbarer Weise, basierend auf dem allgemeinen Marktzinsniveau in der Bundesrepublik Deutschland bestimmt wird.

Die Berechnungsstelle legt zudem fest, welche Bildschirmseite oder andere Quelle in Verbindung mit einem solchen Nachfolge-Referenzsatz verwendet werden soll (die "**Nachfolge-Bildschirmseite**"). Ab dem Zeitpunkt der Bestimmung des Nachfolge-Referenzsatzes (der "**maßgebliche Zeitpunkt**") gilt jede Bezugnahme auf den Referenzsatz als Bezugnahme auf den Nachfolge-Referenzsatz und jede Bezugnahme auf die Bildschirmseite bezieht sich vom maßgeblichen Zeitpunkt an als Bezugnahme auf die Nachfolge-Bildschirmseite, und die Bestimmungen dieses Absatzes gelten entsprechend. Die Berechnungsstelle informiert die Emittentin über solche Feststellungen. Die Emittentin informiert anschließend die Gläubiger der Pfandbriefe gemäß § 10. Der Nachfolge-Referenzsatz findet ab dem ersten Tag der ersten Zinsperiode nach dem Einstellungsereignis Anwendung, es sei denn, die Emittentin entscheidet sich für die Rückzahlung der Pfandbriefe gemäß den nachfolgenden Bestimmungen dieses Absatzes.

(I) The Reference Rate shall be replaced with the reference rate, which is announced by the administrator of the Reference Rate, the competent central bank or a regulatory or supervisory authority as the successor rate for the Reference Rate for the term of the Reference Rate and which can be used in accordance with applicable law; or (if such a successor rate cannot be determined)

(II) the Reference Rate shall be replaced with an alternative reference rate, which is or will be commonly used (in accordance with applicable law) as a reference rate for a comparable term for floating rate Pfandbriefe in the Specified Currency; or (if such an alternative reference rate cannot be determined)

(III) the Reference Rate shall be replaced with a rate, which is determined by the Calculation Agent in its reasonable discretion (*billiges Ermessen*) with regard to the term of the Reference Rate and the relevant currency in a commercially reasonable manner based on the general market interest levels in the Federal Republic of Germany.

The Calculation Agent shall also determine which screen page or other source shall be used in connection with such Successor Reference Rate (the "**Successor Screen Page**"). From the date of the determination of the Successor Reference Rate (the "**Relevant Date**") any reference to the Reference Rate shall be read as a reference to the Successor Reference Rate and any reference to the Screen Page herein shall from the Relevant Date on be read as a reference to the Successor Screen Page and the provisions of this paragraph shall apply *mutatis mutandis*. The Calculation Agent will notify the Issuer about such determinations. The Issuer shall thereafter inform the Holders of the Pfandbriefe in accordance with § 10. The Successor Reference Rate starts to apply from the first day of the first Interest Period following the Discontinuation Event unless the Issuer elects to redeem the Pfandbriefe in accordance with the provisions of this paragraph below.

Zusätzlich zu einer Ersetzung des Referenzsatzes durch einen Nachfolge-Referenzsatz kann [die Emittentin] [die Berechnungsstelle] einen Zinsanpassungsfaktor oder Bruch oder Spanne (zu addieren oder zu subtrahieren) festlegen, der oder die bei der Ermittlung des Zinssatzes und bei der Berechnung des Zinsbetrags angewendet werden soll, mit dem Ziel ein Ergebnis zu erzielen, das mit dem wirtschaftlichen Gehalt der Pfandbriefe vor Eintritt des Einstellungsereignisses vereinbar ist und die Interessen der Emittentin und der Gläubiger berücksichtigt und wirtschaftlich gleichwertig für die Emittentin und die Gläubiger ist.

Wenn ein Einstellungsereignis eintritt und ein Nachfolge-Referenzsatz nicht gemäß den oben genannten Punkten (I) oder (II) bestimmt werden kann, kann die Emittentin die Pfandbriefe vollständig, aber nicht teilweise kündigen und zurückzahlen. Die Kündigung wird den Gläubigern der Pfandbriefe von der Emittentin gemäß § 10 mitgeteilt. In dieser Mitteilung muss enthalten sein:

- (i) die Serie der Pfandbriefe, die von der Kündigung betroffen sind; und
- (ii) das Rückzahlungsdatum, welches [ein Tag der nicht später als der zweite Zinszahlungstag nach dem Einstellungsereignis] [und] nicht weniger als **[Mindestmitteilung an die Inhaber einfügen]** oder mehr als **[Maximalmitteilung an die Inhaber einfügen]** [Tage] [TARGET-Geschäftstage] nach dem Datum sein darf, an dem die Mitteilung der Emittentin an die Gläubiger erfolgt ist.

Further and in addition to any replacement of the Reference Rate with a Successor Reference Rate [the Issuer][the Calculation Agent] may specify an interest adjustment factor or fraction or spread (to be added or subtracted) which shall be applied in determining the Rate of Interest and calculating the Interest Amount, for the purpose of achieving a result which is consistent with the economic substance of the Pfandbriefe before the Discontinuation Event occurred, and which shall take into account the interests of the Issuer and the Holders and shall be an economic equivalent for the Issuer and the Holders.

If a Discontinuation Event occurs and a Successor Reference Rate cannot be determined pursuant to (I) or (II) above, the Issuer may redeem the Pfandbriefe in whole but not in part. Notice of such redemption shall be given by the Issuer to the Holders of the Pfandbriefe in accordance with § 10. Such notice shall specify:

Der Zinsbetrag wird ermittelt, indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf die Festgelegte Stückelung angewendet werden, wobei der resultierende Betrag auf den nächsten 0,01 der Festgelegten Währung auf- oder abgerundet wird, wobei 0,005 in der Festgelegten Währung aufgerundet werden.

Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der relevante Zinszahlungstag der Emittentin, der Emissionsstelle und den Gläubigern gemäß § 10 baldmöglichst, aber keinesfalls später als am vierten auf die Berechnung jeweils folgenden

Im Falle einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Zinszahlungstag ohne Vorankündigung nachträglich angepasst (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Anpassung wird umgehend allen Börsen, an denen die Pfandbriefe zu diesem Zeitpunkt notiert sind, sowie den Gläubigern gemäß § 10 mitgeteilt.

[(5)][(6)] *Verbindlichkeit der Festsetzungen*. Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses § 3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, die Emissionsstelle, die Zahlstellen und die Gläubiger bindend.

[(3)][(4)] *Interest Amount*. The Calculation Agent will, on or as soon as practicable after each date at which the Rate of Interest is to be determined, calculate the amount of interest (the "**Interest Amount**") payable on the Pfandbriefe in respect of the Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated by applying the Rate of Interest and the Day Count Fraction (as defined below) to the Specified Denomination and rounding the resulting figure to the nearest 0.01 of the Specified Currency, 0.005 of the Specified Currency being rounded upwards.

[(4)][(5)] *Notification of Rate of Interest and Interest Amount*. The Calculation Agent will cause the Rate of Interest, each Interest Amount for each Interest Period, each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Fiscal Agent and to the Holders in accordance with § 10 as soon as possible after their determination, but in no event later than the fourth

Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of postponement) without notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to any stock exchange on which the Pfandbriefe are then listed and to the Holders in accordance with § 10.

[(5)][(6)] *Determinations Binding*. All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this § 3 by the Calculation Agent shall (in the absence of manifest error) be binding on the Issuer, the Fiscal Agent, the Paying Agents and the Holders.

[(6)][(7)] *Zinslauf*. Der Zinslauf der Pfandbriefe endet an dem Tag, der dem Tag vorangeht, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Pfandbriefe bei Fälligkeit nicht einlöst, endet die Verzinsung der ausstehenden Pfandbriefe nicht an dem Tag, der dem Tag vorausgeht, an dem sie zur Rückzahlung fällig werden, sondern erst an dem Tag, der dem Tag der tatsächlichen Rückzahlung der Pfandbriefe vorangeht. Der maßgebliche Zinssatz ist der gesetzlich festgelegte Satz für Verzugszinsen.¹

[(8)][(9)] *Zinstagequotient*. "**Zinstagequotient**" bezeichnet im Hinblick auf die Berechnung des Zinsbetrages auf einen Pfandbrief für einen beliebigen Zeitraum (der "**Zinsberechnungszeitraum**"):

§ 4 ZAHLUNGEN

(1) (a) *Zahlungen von Kapital*. Zahlungen von Kapital auf die Pfandbriefe erfolgen nach Maßgabe des nachstehenden Absatzes (2) an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems gegen Vorlage und (außer im Fall von Teilzahlungen) Einreichung der die Pfandbriefe zum Zeitpunkt der Zahlung verbriefenden Globalurkunde bei der bezeichneten Geschäftsstelle der Emissionsstelle außerhalb der Vereinigten Staaten.

(b) *Zahlungen von Zinsen*. Die Zahlung von Zinsen auf Pfandbriefe erfolgt nach Maßgabe von Absatz (2) an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems.

(2) *Zahlungsweise*. Vorbehaltlich geltender steuerlicher und sonstiger gesetzlicher Regelungen und Vorschriften erfolgen zu leistende Zahlungen auf die Pfandbriefe in der frei handelbaren und konvertierbaren Währung, die am entsprechenden Fälligkeitstag die Währung des Staates der festgelegten Währung ist.

[(6)][(7)] *Accrual of Interest*. The Pfandbriefe shall cease to bear interest from the date preceding their due date for redemption. If the Issuer shall fail to redeem the Pfandbriefe when due, interest shall continue to accrue on the outstanding Pfandbriefe beyond the due date until the date preceding the date of actual redemption of the Pfandbriefe. The applicable Rate of Interest will be the default rate of interest established by law¹.

[(8)][(9)] *Day Count Fraction*. "**Day Count Fraction**" means, in respect of the calculation of an amount of interest on any Pfandbrief for any period of time (the "**Calculation Period**"):

the actual number of days in the Calculation Period divided by 360.

§ 4 PAYMENTS

(1) (a) *Payment of Principal*. Payment of principal in respect of Pfandbriefe shall be made, subject to paragraph (2) below, to the Clearing System or to its order for credit to the accounts of the relevant accountholders of the Clearing System upon presentation and (except in the case of partial payment) surrender of the Global Note representing the Pfandbriefe at the time of payment at the specified office of the Fiscal Agent outside the United States.

(2) *Manner of Payment*. Subject to applicable fiscal and other laws and regulations, payments of amounts due in respect of the Pfandbriefe shall be made in the freely negotiable and convertible currency which on the respective due date is the currency of the country of the Specified Currency.

¹ The default rate of interest established by law is five percentage points above the basic rate of interest published by *Deutsche Bundesbank* from time to time, §§ 288 paragraph 1, 247 paragraph 1 German Civil Code. *Der gesetzliche Verzugszinssatz beträgt für das Jahr fünf Prozentpunkte über dem von der Deutsche Bundesbank von Zeit zu Zeit veröffentlichten Basiszinssatz, §§ 288 Absatz 1, 247 Absatz 1 BGB.*

(3) *Vereinigte Staaten*. (4) *Erfüllung*. Die Emittentin wird durch Leistung der Zahlung an das Clearing System oder dessen Order von ihrer Zahlungspflicht befreit.

(5) *Zahltag*. Fällt der Fälligkeitstag einer Zahlung in Bezug auf einen Pfandbrief auf einen Tag, der kein Zahltag ist, dann hat der Gläubiger keinen Anspruch auf Zahlung vor dem nächstfolgenden Zahltag, es sei denn jener würde dadurch in den nächsten Kalendermonat fallen; in diesem Fall wird der Zahltag auf den unmittelbar vorausgehenden Geschäftstag vorgezogen.

Für diese Zwecke bezeichnet "**Zahltag**" einen Tag (außer einem Samstag oder Sonntag), an dem (i) das Clearing System und (ii) **[Falls die Festgelegte Währung Euro ist, einfügen:** das Trans-European Automated Real-Time Gross Settlement Express Transfer System 2 oder ein Nachfolgesystem (TARGET)]**[Falls die Festgelegte Währung nicht Euro ist, einfügen:** Geschäftsbanken und Devisenmärkte in **[sämtliche relevanten Finanzzentren]** Zahlungen abwickeln.

(6) *Hinterlegung von Kapital und Zinsen*. Die Emittentin ist berechtigt, beim Amtsgericht Frankfurt am Main Zins- oder Kapitalbeträge zu hinterlegen, die von den Gläubigern nicht innerhalb von zwölf Monaten nach dem Fälligkeitstag beansprucht worden sind, auch wenn die Gläubiger sich nicht in Annahmeverzug befinden. Soweit eine solche Hinterlegung erfolgt, und auf das Recht der Rücknahme verzichtet wird, erlöschen die Ansprüche der Gläubiger gegen die Emittentin.

§ 5 RÜCKZAHLUNG

(1) *Rückzahlung bei Endfälligkeit*. Soweit nicht zuvor bereits ganz oder teilweise zurückgezahlt oder angekauft und entwertet, werden die Pfandbriefe zu ihrem Rückzahlungsbetrag am **[Fälligkeitstag]** (der "**Fälligkeitstag**") zurückgezahlt. Der Rückzahlungsbetrag in Bezug auf jeden Pfandbrief entspricht der Festgelegten Stückelung der Pfandbriefe.

(2) *Keine Vorzeitige Rückzahlung*. Weder die Emittentin noch ein Gläubiger ist zur vorzeitigen Rückzahlung der Pfandbriefe berechtigt.

(3) *United States*. For these purposes, "**Payment Business Day**" means a day which is a day (other than a Saturday or a Sunday) on which both (i) the Clearing System, and (ii) **[If the Specified Currency is Euro, insert:** the Trans-European Automated Real-Time Gross Settlement Express Transfer System 2 or any successor system thereto (TARGET)]**[If the Specified Currency is not Euro, insert:** commercial banks and foreign exchange markets in **[all relevant financial centres]** settle payments.

(6) *Deposit of Principal and Interest*. The Issuer may deposit with the local court (*Amtsgericht*) in Frankfurt am Main principal or interest not claimed by Holders within twelve months after the Maturity Date, even though such Holders may not be in default of acceptance of payment. If and to the extent that the deposit is effected and the right of withdrawal is waived, the respective claims of such Holders against the Issuer shall cease.

§ 5 REDEMPTION

(1) *Redemption at Maturity*. Unless previously redeemed in whole or in part or purchased and cancelled, the Pfandbriefe shall be redeemed at their Final Redemption Amount on **[Maturity Date]** (the "**Maturity Date**"). The Final Redemption Amount in respect of each Pfandbrief shall be its Specified Denomination.

(2) *No Early Redemption*. Neither the Issuer nor any Holder shall be entitled to an early redemption of the Pfandbriefe.

(5) *Zahltag.* Fällt der Fälligkeitstag einer Zahlung in Bezug auf eine Schuldverschreibung auf einen Tag, der kein Zahltag ist, dann hat der Gläubiger keinen Anspruch auf Zahlung vor dem nachfolgenden Zahltag.

Der Gläubiger ist nicht berechtigt, weitere Zinsen oder sonstige Zahlungen aufgrund einer solchen Verschiebung eines Zahltages zu verlangen.

Für diese Zwecke bezeichnet "**Zahltag**" einen Tag (außer einem Samstag oder Sonntag), an dem (i) das Clearing System und (ii) **[Falls die Festgelegte Währung Euro ist, einfügen: das Trans-European Automated Real-Time Gross Settlement Express Transfer System 2 oder ein Nachfolgesystem (TARGET)]****[Falls die Festgelegte Währung nicht Euro ist, einfügen: Geschäftsbanken und Devisenmärkte in [sämtliche relevanten Finanzzentren]]** Zahlungen abwickeln.

(6) *Hinterlegung von Kapital und Zinsen.* Die Emittentin ist berechtigt, beim Amtsgericht Frankfurt am Main Zins- oder Kapitalbeträge zu hinterlegen, die von den Gläubigern nicht innerhalb von zwölf Monaten nach dem Fälligkeitstag beansprucht worden sind, auch wenn die Gläubiger sich nicht in Annahmeverzug befinden. Soweit eine solche Hinterlegung erfolgt, und auf das Recht der Rücknahme verzichtet wird, erlöschen die Ansprüche der Gläubiger gegen die Emittentin.

The Holder shall not be entitled to further interest or other payment in respect of such a postponement of a Payment Business Day.

For these purposes, "**Payment Business Day**" means a day which is a day (other than a Saturday or a Sunday) on which both (i) the Clearing System, and (ii) **[If the Specified Currency is Euro, insert: the Trans-European Automated Real-Time Gross Settlement Express Transfer System 2 or any successor system thereto (TARGET)]****[If the Specified Currency is not Euro, insert: commercial banks and foreign exchange markets in [all relevant financial centres]]** settle payments.

(6) *Deposit of Principal and Interest.* The Issuer may deposit with the local court (*Amtsgericht*) in Frankfurt am Main principal or interest not claimed by Holders within twelve months after the Maturity Date, even though such Holders may not be in default of acceptance of payment. If and to the extent that the deposit is effected and the right of withdrawal is waived, the respective claims of such Holders against the Issuer shall cease.

§ 5
RÜCKZAHLUNG

(1) *Rückzahlung bei Endfälligkeit.*

Soweit nicht zuvor bereits ganz oder teilweise zurückgezahlt oder angekauft und entwertet, werden die Schuldverschreibungen zu ihrem Rückzahlungsbetrag am **[Fälligkeitstag]** (der "**Fälligkeitstag**") zurückgezahlt. Der Rückzahlungsbetrag in Bezug auf jede Schuldverschreibung entspricht der Festgelegten Stückelung.

(2) *Vorzeitige Rückzahlung aus steuerlichen Gründen.*

Die Schuldverschreibungen können insgesamt, jedoch nicht teilweise, nach Wahl der Emittentin mit einer Kündigungsfrist von nicht weniger als 30 und nicht mehr als 60 Tagen gegenüber der Emissionsstelle und gemäß § 12 gegenüber den Gläubigern vorzeitig gekündigt und zu ihrem vorzeitigen Rückzahlungsbetrag (wie nachstehend definiert) **[Falls aufgelaufene Zinsen separat gezahlt werden, einfügen:** zuzüglich bis zum für die Rückzahlung festgesetzten Tag aufgelaufener Zinsen] zurückgezahlt werden, falls die Emittentin als Folge einer Änderung oder Ergänzung der Steuer- oder Abgabengesetze und -vorschriften der Bundesrepublik Deutschland oder deren politischen Untergliederungen oder Steuerbehörden oder als Folge einer Änderung oder Ergänzung der Anwendung oder der offiziellen Auslegung dieser Gesetze und Vorschriften (vorausgesetzt diese Änderung oder Ergänzung wird am oder nach dem Tag, an dem die letzte Tranche dieser Serie von Schuldverschreibungen begeben wird, wirksam) am nächstfolgenden Zinszahlungstag (wie in § 3 (1) definiert) zur Zahlung von zusätzlichen Beträgen (wie in § 7 dieser Bedingungen definiert) verpflichtet sein wird.

Eine solche Kündigung hat gemäß § 12 zu erfolgen. Sie ist unwiderruflich, muss den für die Rückzahlung festgelegten Termin und die das Rückzahlungsrecht der Emittentin begründenden Umstände nennen.

(3) *Vorzeitiger Rückzahlungsbetrag.*

Für die Zwecke von Absatz 2 dieses § 5 und § 9 entspricht der vorzeitige Rückzahlungsbetrag einer Schuldverschreibung dem Rückzahlungsbetrag.

§ 5
REDEMPTION

(1) *Redemption at Maturity.*

Unless previously redeemed in whole or in part or purchased and cancelled, the Notes shall be redeemed at their Final Redemption Amount on **[Maturity Date]** (the "**Maturity Date**"). The Final Redemption Amount in respect of each Note shall be its Specified Denomination.

(2) *Early Redemption for Reasons of Taxation.*

If as a result of any change in, or amendment to, the laws or regulations of the Federal Republic of Germany or any political subdivision or taxing authority thereto or therein affecting taxation or the obligation to pay duties of any kind, or any change in, or amendment to, an official interpretation or application of such laws or regulations, which amendment or change is effective on or after the date on which the last tranche of this Series of Notes was issued, the Issuer is required to pay Additional Amounts (as defined in § 7 herein) on the next succeeding Interest Payment Date (as defined in § 3 (1), the Notes may be redeemed, in whole but not in part, at the option of the Issuer, upon not more than 60 days' nor less than 30 days' prior notice of redemption given to the Fiscal Agent and, in accordance with § 12, to the Holders, at their Early Redemption Amount (as defined below) **[If accrued interest shall be paid separately, insert:** together with interest, if any, accrued to the date fixed for redemption].

Any such notice shall be given in accordance with § 12. It shall be irrevocable, must specify the date fixed for redemption and must set forth the facts constituting the basis for the right of the Issuer so to redeem.

STEUERN

Sämtliche auf die Schuldverschreibungen zu zahlenden Beträge sind an der Quelle ohne Einbehalt oder Abzug von oder aufgrund von gegenwärtigen oder zukünftigen Steuern oder sonstigen Abgaben gleich welcher Art zu leisten, die von oder in der Bundesrepublik Deutschland oder von oder in den Vereinigten Staaten von Amerika oder für deren Rechnung oder von oder für Rechnung einer politischen Untergliederung oder Steuerbehörde derselben auferlegt oder erhoben werden, es sei denn, ein solcher Einbehalt oder Abzug ist gesetzlich oder auf der Grundlage eines Vertrages zwischen der Emittentin oder einem Staat und den Vereinigten Staaten von Amerika oder einer Behörde der Vereinigten Staaten von Amerika vorgeschrieben. In diesem Fall wird die Emittentin diejenigen zusätzlichen Beträge (die "**zusätzlichen Beträge**") zahlen, die erforderlich sind, damit die den Gläubigern zufließenden Nettobeträge nach einem solchen Einbehalt oder Abzug jeweils den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Gläubigern empfangen worden wären; die Verpflichtung zur Zahlung solcher zusätzlichen Beträge besteht jedoch nicht für solche Steuern und Abgaben,:

- (a) die in Bezug auf die deutsche Kapitalertragsteuer (einschließlich der sog. Abgeltungsteuer), einschließlich Kirchensteuer (soweit anwendbar) und Solidaritätszuschlag, nach den deutschen Steuergesetzen abgezogen oder einbehalten werden, auch wenn der Abzug oder Einbehalt durch die Emittentin, ihren Stellvertreter oder die auszahlende Stelle vorzunehmen ist oder jede andere Steuer, welche die oben genannten Steuern ersetzen sollte; oder
- (b) die wegen einer gegenwärtigen oder früheren persönlichen oder geschäftlichen Beziehung des Gläubigers zur Bundesrepublik Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in der Bundesrepublik Deutschland stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder

(3) *Agents of the Issuer.* The Fiscal Agent and the Paying Agent[s] act solely as agents of the Issuer and do not have any obligations towards or relationship of agency or trust to any Holder.

§ 7

All amounts payable in respect of the Notes shall be made at source without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by way of withholding or deduction at source by or on behalf of the Federal Republic of Germany or the United States of America or any political subdivision or any authority thereof or therein having power to tax unless such withholding or deduction is required by law or pursuant to any agreement between the Issuer or a country and the United States of America or any authority thereof. In such event, the Issuer shall pay such additional amounts (the "**Additional Amounts**") as shall be necessary in order that the net amounts received by the Holders after such withholding or deduction shall equal the respective amounts which would otherwise have been receivable in the absence of such withholding or deduction except that no such Additional Amounts shall be payable on account of any taxes or duties:

- (a) which, with respect to German *Kapitalertragsteuer* (including, *Abgeltungsteuer*), as well as including church tax (if any) and the German Solidarity Surcharge (*Solidaritätszuschlag*), are to be deducted or withheld pursuant to German tax laws, even if the deduction or withholding has to be made by the Issuer, its representative or the disbursing agent (*auszahlende Stelle*), or any other tax which may substitute the aforementioned taxes, as the case may be; or
- (b) which are payable by reason of the Holder having, or having had, some personal or business connection with the Federal Republic of Germany and not merely by reason of the fact that payments in respect of the Notes are, or for purposes of taxation are deemed to be, derived from sources in, or are secured in, the Federal Republic of Germany, or

- (c) die (x) aufgrund oder infolge (i) eines internationalen Vertrages, dessen Partei die Bundesrepublik Deutschland ist, oder (ii) einer Verordnung oder Richtlinie aufgrund oder infolge eines solchen Vertrages auferlegt oder erhoben werden; oder
- (y) auf eine Zahlung erhoben werden, die an eine natürliche Person vorgenommen wird und aufgrund der Richtlinie 2003/48/EG des Europäischen Rates oder einer anderen Richtlinie (die "**Richtlinie**") zur Umsetzung der Schlussfolgerungen des ECOFIN-Ratstreffens vom 26. und 27. November 2000 über die Besteuerung von Einkommen aus Geldanlagen oder aufgrund einer Rechtsnorm erhoben werden, die der Umsetzung dieser Richtlinie dient, dieser entspricht oder zur Anpassung an die Richtlinie eingeführt wird; oder
- (d) die wegen einer Rechtänderung zu zahlen sind, welche später als 30 Tage nach Fälligkeit der betreffenden Zahlung oder, falls dies später erfolgt, ordnungsgemäßer Bereitstellung aller fälligen Beträge und einer diesbezüglichen Bekanntmachung gemäß § 12 wirksam wird; oder
- (e) die von einer Zahlstelle abgezogen oder einbehalten werden, wenn eine andere Zahlstelle die Zahlung ohne einen solchen Abzug oder Einbehalt hätte leisten können; oder
- (f) wenn hinsichtlich der Schuldverschreibungen derartige Steuern oder Abgaben auf andere Weise als durch Abzug oder Einbehalt von Kapital und/oder Zinsen erhoben werden; oder
- (g) in Bezug auf Zahlungen durch die Emittentin, die Zahlstelle(n) oder eine andere Person im Hinblick auf die Schuldverschreibungen, die gemäß den Abschnitten 1471 bis 1474 des United States Internal Revenue Code of 1986, in der jeweils gültigen Fassung ("**FATCA**"), aufgrund eines Vertrages, eines Gesetzes, einer Verordnung oder einer anderen offiziellen Richtlinie oder Verwaltungspraxis, die FATCA durch die Bundesrepublik Deutschland oder eine andere Jurisdiktion umsetzt, oder einem Vertrag zwischen der Emittentin und den Vereinigten Staaten oder einer Behörde, der FATCA umsetzt, abgezogen oder einbehalten werden müssen.
- (c) which (x) are payable pursuant to, or as a consequence of (i) an international agreement, to which the Federal Republic of Germany is a party, or (ii) a directive or regulation passed pursuant to, or in the consequence of, such Agreement, or
- (y) are payable on a payment to an individual and which are required to be levied pursuant to European Council Directive 2003/48/EC or any other directive (the "**Directive**") implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000 on the taxation of savings income or any law implementing or complying with, or introduced in order to conform to, such Directive, or
- (d) which are payable by reason of a change of law that becomes effective more than 30 days after the relevant payment becomes due or is duly provided for and notice thereof is published in accordance with § 12, whichever occurs later, or
- (e) which are deducted or withheld by a Paying Agent if another Paying Agent would have been able to make the relevant payment without such deduction or withholding; or
- (f) if with respect to the Notes, such taxes or duties are levied other than by deduction or withholding of principal and/or interest; or
- (g) with respect to any payment made by the Issuer, the Paying Agent(s) or any other person in respect of any Notes, which are required to be deducted or withheld pursuant to Sections 1471 to 1474 of the U.S. Internal Revenue Code of 1986, as amended ("**FATCA**"), any treaty, law, regulation or other official guidance or administrative practice enacted by the Federal Republic of Germany or any other jurisdiction implementing FATCA, or any agreement between the Issuer, and the United States or any authority thereof implementing FATCA.

- (f) die Emittentin ihren Geschäftsbetrieb einstellt oder damit droht; oder
- (g) in der Bundesrepublik Deutschland irgendein Gesetz, eine Verordnung oder behördliche Anordnung erlassen wird oder ergeht, aufgrund derer die Emittentin daran gehindert wird, die von ihr gemäß diesen Emissionsbedingungen übernommenen Verpflichtungen in vollem Umfang zu beachten und zu erfüllen und diese Lage nicht binnen 90 Tagen behoben ist.

Das Kündigungsrecht erlischt, falls der Kündigungsgrund vor Ausübung des Rechts geheilt wurde.

(2) *Benachrichtigung.* Eine Benachrichtigung, einschließlich einer Kündigung der Schuldverschreibungen gemäß vorstehendem Absatz (1) ist in Textform oder in schriftlicher Form in deutscher oder englischer Sprache gegenüber der Emissionsstelle zu erklären und persönlich oder per Brief an deren bezeichnete Geschäftsstelle zu übermitteln. - (a) die Nachfolgeschuldnerin alle Verpflichtungen der Emittentin in Bezug auf die Schuldverschreibungen übernimmt;
- (b) die Emittentin und die Nachfolgeschuldnerin alle erforderlichen Genehmigungen erhalten haben und berechtigt sind, an die Emissionsstelle die zur Erfüllung der Zahlungsverpflichtungen aus den Schuldverschreibungen zahlbaren Beträge, in der hierin festgelegten Währung zu zahlen, ohne verpflichtet zu sein, jeweils in dem Land, in dem die Nachfolgeschuldnerin oder die Emittentin ihren Sitz oder Steuersitz haben, erhobene Steuern oder andere Abgaben jeder Art abzuziehen oder einzubehalten;

The right to declare Notes due shall terminate if the situation giving rise to it has been cured before the right is exercised.

- (c) die Nachfolgeschuldnerin sich verpflichtet hat, jeden Gläubiger hinsichtlich solcher Steuern, Abgaben oder behördlichen Lasten freizustellen, die einem Gläubiger bezüglich der Ersetzung auferlegt werden;
- (d) die Emittentin unwiderruflich und unbedingt gegenüber den Gläubigern die Zahlung aller von der Nachfolgeschuldnerin auf die Schuldverschreibungen zahlbaren Beträge zu Bedingungen garantiert, die sicherstellen, dass jeder Gläubiger wirtschaftlich mindestens so gestellt wird, wie er ohne eine Ersetzung stehen würde; und
- (e) der Emissionsstelle ein oder mehrere Rechtsgutachten von anerkannten Rechtsanwältinnen vorgelegt werden, die bestätigen, dass die Bestimmungen in den vorstehenden Unterabsätzen (a), (b), (c) und (d) erfüllt wurden.

(2) *Bekanntmachung.* Jede Ersetzung ist gemäß § 12 bekannt zu machen.

(3) *Änderung von Bezugnahmen.* Im Falle einer Ersetzung gilt jede Bezugnahme in diesen Emissionsbedingungen auf die Emittentin ab dem Zeitpunkt der Ersetzung als Bezugnahme auf die Nachfolgeschuldnerin und jede Bezugnahme auf das Land, in dem die Emittentin ihren Sitz oder Steuersitz hat, gilt ab diesem Zeitpunkt als Bezugnahme auf das Land, in dem die Nachfolgeschuldnerin ihren Sitz oder Steuersitz hat. (c) the Substitute Debtor has agreed to indemnify and hold harmless each Holder against any tax, duty, assessment or governmental charge imposed on such Holder in respect of such substitution;

(d) the Issuer irrevocably and unconditionally guarantees in favour of each Holder the payment of all sums payable by the Substitute Debtor in respect of the Notes on terms which ensure that each Holder will be put in an economic position that is at least as favourable as that which would have existed if the substitution had not taken place; and

(e) there shall have been delivered to the Fiscal Agent an opinion or opinions of lawyers of recognised standing to the effect that subparagraphs (a), (b), (c) and (d) above have been satisfied.

(2) *Notice.* Notice of any such substitution shall be published in accordance with § 12.

(3) *Change of References.* In the event of any such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the Substitute Debtor and any reference to the country in which the Issuer is domiciled or resident for taxation purposes shall from then on be deemed to refer to the country of domicile or residence for taxation purposes of the Substitute Debtor. Furthermore, in the event of such substitution the following shall apply:

Zusätzlich zu einer Ersetzung des Referenzsatzes durch einen Nachfolge-Referenzsatz kann [die Emittentin] [die Berechnungsstelle] einen Zinsanpassungsfaktor oder Bruch oder Spanne (zu addieren oder zu subtrahieren) festlegen, der oder die bei der Ermittlung des Zinssatzes und bei der Berechnung des Zinsbetrags angewendet werden soll, mit dem Ziel ein Ergebnis zu erzielen, das mit dem wirtschaftlichen Gehalt der Schuldverschreibung vor Eintritt des Einstellungsereignisses vereinbar ist und die Interessen der Emittentin und der Gläubiger berücksichtigt und wirtschaftlich gleichwertig für die Emittentin und die Gläubiger ist.

Wenn ein Einstellungsereignis eintritt und ein Nachfolge-Referenzsatz nicht gemäß den oben genannten Punkten (I) oder (II) bestimmt werden kann, kann die Emittentin die Schuldverschreibungen vollständig, aber nicht teilweise kündigen und zurückzahlen. If a Discontinuation Event occurs and a Successor Reference Rate cannot be determined pursuant to (I) or (II) above, the Issuer may redeem the Notes in whole but not in part. Notice of such redemption shall be given by the Issuer to the Holders of the Notes in accordance with § 10. Such notice shall specify:

Each Interest Amount shall be calculated by applying the Rate of Interest and the Day Count Fraction (as defined below) to the Specified Denomination and rounding the resulting figure to the nearest 0.01 of the Specified Currency, 0.005 of the Specified Currency being rounded upwards.

Jede solche Anpassung wird umgehend allen Börsen, an denen die Schuldverschreibungen zu diesem Zeitpunkt notiert sind, sowie den Gläubigern gemäß § 12 mitgeteilt.

[(5)][(6)] *Verbindlichkeit der Festsetzungen.* Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses § 3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, die Emissionsstelle, die Zahlstellen und die Gläubiger bindend.

[(6)][(7)] *Zinslauf.* Der Zinslauf der Schuldverschreibungen endet an dem Tag, der dem Tag vorangeht, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlöst, endet die Verzinsung der ausstehenden Schuldverschreibungen nicht an dem Tag, der dem Tag vorausgeht, an dem sie zur Rückzahlung fällig werden, sondern erst an dem Tag, der dem Tag der tatsächlichen Rückzahlung der Schuldverschreibungen vorangeht. [(5)][(6)] *Determinations Binding.* All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this § 3 by the Calculation Agent shall (in the absence of manifest error) be binding on the Issuer, the Fiscal Agent, the Paying Agents and the Holders.

[(6)][(7)] *Accrual of Interest.* The Notes shall cease to bear interest from the date preceding their due date for redemption. If the Issuer shall fail to redeem the Notes when due, interest shall continue to accrue on the outstanding Notes beyond the due date until the date preceding the date of actual redemption of the Notes. The applicable Rate of Interest will be the default rate of interest established by law¹.

[(8)][(9)] *Day Count Fraction.* "**Day Count Fraction**" means, in respect of the calculation of an amount of interest on any Note for any period of time (the "**Calculation Period**"):

Soweit eine solche Hinterlegung erfolgt, und auf das Recht der Rücknahme verzichtet wird, erlöschen die Ansprüche der Gläubiger gegen die Emittentin.

"Feststellungsperiode" ist die Periode ab einem Feststellungstermin (einschließlich desselben) bis zum nächsten Feststellungstermin (ausschließlich desselben).

(b) Falls die Emittentin den vorzeitigen Rückzahlungsbetrag bei Fälligkeit nicht zahlt, wird der vorzeitige Rückzahlungsbetrag einer Schuldverschreibung wie vorstehend beschrieben berechnet, jedoch mit der Maßgabe, dass die Bezugnahmen in Unterabsatz (a) (ii) auf den für die Rückzahlung vorgesehenen Rückzahlungstag oder den Tag, an dem diese Schuldverschreibungen fällig und rückzahlbar werden, durch den früheren der nachstehenden Zeitpunkte ersetzt werden: (i) der Tag, an dem die Zahlung gegen ordnungsgemäße Vorlage und Einreichung der betreffenden Schuldverschreibungen (sofern erforderlich) erfolgt, und (ii) der vierzehnte Tag, nachdem die Emissionsstelle gemäß § 12 mitgeteilt hat, dass ihr die für die Rückzahlung erforderlichen Mittel zur Verfügung gestellt wurden.

Part D.III.
Form of Final Terms

Terms not otherwise defined in the Final Terms (as defined below) shall have the meanings specified in the Terms and Conditions of the Securities, as set out in the Base Prospectus (the "**Terms and Conditions of the Securities**"). All references in these Final Terms to numbered sections are to sections of the Terms and Conditions of the Securities.

The Terms and Conditions of the Securities shall be completed and specified by the information contained in Part I of these Final Terms. The completed and specified provisions of the relevant Option I, II, III, IV, V, VI, VII, VIII or IX of the Terms and Conditions of the Securities (if Type A applies) represent the terms and conditions applicable to the relevant Series of Securities or the relevant Option I, II, III, IV, V or VI of the Terms and Conditions of the Securities, completed and specified by, and to be read together with, Part I of these Final Terms (if Type B applies) represent the terms and conditions applicable to the relevant Series of Securities (in each case the "**Terms and Conditions**").

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS

For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive 2016/97/EU ("**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended or superseded, "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]

[MiFID II PRODUCT GOVERNANCE / QUALIFIED INVESTORS AND ELIGIBLE COUNTERPARTIES ONLY TARGET MARKET – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Securities has led to the conclusion that: (i) the target market for the Securities is eligible counterparties[, [and] professional clients [[each] having at least extended knowledge and experience], each as defined in Directive 2014/65/EU (as amended, "**MiFID II**"); and (ii) all channels for distribution of the Securities are appropriate [including investment advice, portfolio management, non-advised sales and pure execution services]. **[Consider any negative target market]** Any person subsequently offering, selling or recommending the Securities (a "**distributor**") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels[, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable].**[Insert further details on target market, client categories etc.]**

Part E
Information relating to Pfandbriefe

INFORMATION RELATING TO PFANDBRIEFE

The following is a description condensed to some of the more fundamental principles governing the law regarding Pfandbriefe and Pfandbrief Banks in summary form and without addressing all the laws' complexities and details. Accordingly, it is qualified in its entirety by reference to the applicable laws.

Introduction

The Pfandbrief operations of the Issuer are subject to the German Pfandbrief Act (*Pfandbriefgesetz*) of 22 May 2005, which has come into force on 19 July 2005 and was lastly amended on 2 November 2015 (with some of the respective amendments having entered into force on 6 November 2015) (the "**Pfandbrief Act**").

All German credit institutions are permitted, subject to authorisation and further requirements of the Pfandbrief Act, to engage in the Pfandbrief business and to issue Mortgage Pfandbriefe, Public Pfandbriefe, Ship Pfandbriefe as well as Aircraft Pfandbriefe.

German credit institutions wishing to take up the Pfandbrief business must obtain special authorisation under the German Banking Act (*Kreditwesengesetz* - the "**Banking Act**") from the Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht* - "**BaFin**") and, for that purpose, must meet some additional requirements as specified in the Pfandbrief Act. In the case of the Issuer, the authorisation to act as a Pfandbrief Bank was granted on 3 December 2010.

For the purpose of this summary, banks authorised to issue Pfandbriefe will generally be referred to as "**Pfandbrief Banks**" which is the term applied by the Pfandbrief Act.

Rules applicable to all types of Pfandbriefe

Pfandbriefe are standardised debt instruments issued by a Pfandbrief Bank. The quality and standards of Pfandbriefe are strictly governed by provisions of the Pfandbrief Act and subject to the supervision of the BaFin. Pfandbriefe generally are medium- to long-term bonds, typically with an original maturity of two to ten years, which are secured or "covered" at all times by a pool of specified qualifying assets (*Deckung*), as described below. Pfandbriefe are recourse obligations of the issuing bank, and no separate vehicle is created for their issuance generally or for the issuance of any specific series of Pfandbriefe. Traditionally, Pfandbriefe have borne interest at a fixed rate, but Pfandbrief Banks are also issuing zero-coupon and floating rate Pfandbriefe, in some cases with additional features such as step-up coupons, caps or floors. Most issues of Pfandbriefe are denominated in Euro. A Pfandbrief Bank may, however, also issue Pfandbriefe in other currencies, subject to certain limitations. Pfandbriefe may not be redeemed at the option of the Holders prior to maturity.

Pfandbriefe may either be Mortgage Pfandbriefe, Public Pfandbriefe, Ship Pfandbriefe or Aircraft Pfandbriefe. The outstanding Pfandbriefe of any one of these types must be covered by a separate pool of specified qualifying assets: a pool for Mortgage Pfandbriefe only, a pool for Public Pfandbriefe only, a pool covering all outstanding Ship Pfandbriefe only, and a pool covering all outstanding Aircraft Pfandbriefe (each a "**Cover Pool**"). An independent trustee appointed by the BaFin has wide responsibilities in monitoring compliance by the Pfandbrief Bank with the provisions of the Pfandbrief Act. In particular, the trustee monitors the sufficiency of the cover assets recorded in a register listing the assets provided as cover from time to time in respect of the Pfandbriefe of any given type; such register is maintained by the Pfandbrief Bank.

The aggregate principal amount of assets in each Cover Pool must at all times at least be equal to the aggregate principal amount of the outstanding Pfandbriefe covered by such Cover Pool. Moreover, the aggregate interest yield on any such Pool must at all times be at least equal to the aggregate interest payable on all Pfandbriefe covered by such Cover Pool. In addition, the coverage of all outstanding Pfandbriefe with respect to principal and interest must also at all times be ensured on the basis of the present value (*Barwert*). Finally, the present value of the assets contained in the Cover Pool must exceed the total amount of liabilities from the corresponding Pfandbriefe and derivatives by at least 2 per cent. (*sichernde Überdeckung*).

Such 2 per cent. excess cover must consist of highly liquid assets. Qualifying assets for the excess cover are (i) debt securities of the Federal Republic of Germany, a special fund of the Federal Republic of Germany, a German state, the European Communities, the member states of the European Union, the states comprising the European Economic Area, the European Investment Bank, the IBRD-World Bank, the Council of Europe Development Bank, or the European Bank for Reconstruction and Development, as well as under certain circumstances debt securities of Switzerland, the United States of America, Canada or Japan, if such countries have been assigned a risk weight equal to a credit quality of level 1 obtained by an international rating agency and as set out in regulation (EU) no. 575/2013; (ii) debt securities guaranteed by any of the foregoing entities; and (iii) credit balances maintained with the European Central Bank, the central banks of the member states of the European Union or appropriate credit institutions which have their corporate seat in a country listed under (i) above if such credit institutions have been assigned a risk weight equal to a credit quality of level 1 obtained by an international rating agency and as set out in regulation (EU) no. 575/2013. In addition, to safeguard liquidity, a certain liquidity cushion must be established.

The Pfandbrief Bank must record in the register of cover assets for any Cover Pool of a given Pfandbrief type each asset and the liabilities arising from derivatives. Derivatives may be entered in such register only with the consent of the trustee and the counterparty.

The Pfandbrief Bank must have an appropriate risk management system meeting the requirements specified in detail in the Pfandbrief Act and must comply with comprehensive disclosure requirements on a quarterly and annual basis set out in detail in the Pfandbrief Act.

Cover Pool for Mortgage Pfandbriefe

The principal assets qualifying for the Cover Pool for Mortgage Pfandbriefe are loans secured by mortgages which may serve as cover up to the initial 60 per cent. of the value of the property, as assessed by experts of the Pfandbrief Bank not taking part in the credit decision in accordance with comprehensive evaluation rules designed to arrive at the fair market value of the property. Moreover, the mortgaged property must be adequately insured against relevant risks.

The underlying property must be situated in a state of the European Economic Area, Switzerland, the United States of America, Canada or Japan. Furthermore, the registered cover pool assets include all claims of the Pfandbrief Bank directed to the economic substance of the property.

Other assets qualifying for inclusion in the Cover Pool for Mortgage Pfandbriefe include, among others:

(i) equalisation claims converted into bonds,

(ii) subject to certain qualifications, those assets which may also be included in the 2 per cent. excess cover described above, up to a total sum of 10 per cent. of the aggregate principal amount of outstanding Mortgage Pfandbriefe; (iii) the assets which may also be included in the Cover Pool for Public Pfandbriefe referred to below, up to a total of 20 per cent. of the aggregate principal amount of outstanding Mortgage Pfandbriefe, whereby the assets pursuant to (i) above will be deducted and (iv) claims arising under interest rate and currency swaps as well as under other qualifying derivatives contracted under standardised master agreements with certain qualifying counterparties, provided that

it is assured that the claims arising under such derivatives will not be prejudiced in the event of the insolvency of the Pfandbrief Bank or any other Cover Pool maintained by it. The amount of the claims of the Pfandbrief Bank arising under derivatives which are included in the Cover Pool measured against the total amount of all assets forming part of the Cover Pool as well as the amount of the liabilities of the Pfandbrief Bank arising from such derivatives measured against the aggregate principal amount of the outstanding Mortgage Pfandbriefe plus the liabilities arising from derivatives may in either case not exceed 12 per cent., calculated in each case on the basis of the net present values.

Cover Assets in the United Kingdom

In the case of a withdrawal of the United Kingdom from the European Union and the European Economic Area, cover assets registered until the withdrawal of the United Kingdom in accordance with the above mentioned provisions of the Pfandbrief Act which are secured by properties or rights equivalent to real property located in the United Kingdom or leveled against the United Kingdom or its public authorities (if permissible) or guaranteed by such public authorities, remain eligible as cover. In addition, such assets included in cover until the withdrawal may not be applied against the above-mentioned limit of 10 per cent. for cover assets for which the preferential right of the Pfandbrief Holders is not ensured.

Status and protection of the Pfandbrief Holders

The Holders of outstanding Pfandbriefe rank *pari passu* among themselves, and have preferential claims with respect to the assets registered in the relevant cover register. With respect to other assets of a Pfandbrief Bank, holders of Pfandbriefe rank *pari passu* with unsecured creditors of the Pfandbrief Bank.

Insolvency proceedings

In the event of the institution of insolvency proceedings over the assets of the Pfandbrief Bank, any Cover Pool maintained by it would not be part of the insolvency estate, and, therefore, such insolvency would not automatically result in an insolvency of any Cover Pool. Only if at the same time or thereafter the relevant Cover Pool were to become insolvent, separate insolvency proceedings would be initiated over the assets of such Cover Pool by the BaFin. In this case, Holders of Pfandbriefe would have the first claim on the respective Cover Pool. Their preferential right would also extend to interest on the Pfandbriefe accrued after the commencement of insolvency proceedings. Furthermore, but only to the extent that Holders of Pfandbriefe suffer a loss, Holders would also have recourse to any assets of the Pfandbrief Bank not included in the Cover Pools. As regards those assets, Holders of the Pfandbriefe would rank equal with other unsecured and unsubordinated creditors of the Pfandbrief Bank.

One to three administrators (*Sachwalter*, each an "**Administrator**") will be appointed in the case of the insolvency of the Pfandbrief Bank to administer each Cover Pool for the sole benefit of the Holders of related Pfandbriefe. The Administrator will be appointed by the court having jurisdiction pursuant to the German Insolvency Code (*Insolvenzordnung*) at the request of the BaFin before or after the institution of insolvency proceedings. The Administrator will be subject to the supervision of the court and also of the BaFin with respect to the duties of the Pfandbrief Bank arising in connection with the administration of the assets included in the relevant Cover Pool. The Administrator will be entitled to dispose of the Cover Pool's assets and receive all payments on the relevant assets to ensure full satisfaction of the claims of the Holders of Pfandbriefe. To the extent, however, that those assets are obviously not necessary to satisfy such claims, the insolvency receiver of the Pfandbrief Bank is entitled to demand the transfer of such assets to the Pfandbrief Bank's insolvency estate.

Subject to the consent of the BaFin, the Administrator may transfer all or part of the cover assets and the liabilities arising from the Pfandbriefe issued against such assets to another Pfandbrief Bank.

Jumbo-Pfandbriefe

Jumbo-Pfandbriefe are governed by the same laws as Pfandbriefe and therefore cannot be classified as a type of securities apart from Pfandbriefe. However, in order to improve the liquidity of the Pfandbrief market certain Pfandbrief Banks have agreed upon certain minimum requirements for Jumbo-Pfandbriefe (*Mindeststandards von Jumbo-Pfandbriefen*) (the "**Minimum Requirements**") applicable to such Pfandbriefe which are issued as Jumbo-Pfandbriefe. These Minimum Requirements are not statutory provisions. Instead, they should be regarded as voluntary self-restrictions which limit the options issuers have when structuring Pfandbriefe. An incomplete overview of the Minimum Requirements is set out below:

- (a) The minimum issue size of a Jumbo-Pfandbrief is Euro 1,000,000,000. If the minimum size is not reached with the initial issue, a Pfandbrief may be increased by way of a tap issue in order to give it Jumbo-Pfandbrief status, provided all the requirements stated under (b) to (g) are fulfilled.
- (b) Only Pfandbriefe of straight bond format (i.e. fixed coupon payable annually in arrear, bullet redemption) may be offered as Jumbo-Pfandbriefe.
- (c) Jumbo-Pfandbriefe must be listed on an organised market in a Member State of the European Union or in another contracting state of the agreement on the European Economic Area immediately after issue, although not later than 30 calendar days after the settlement date.
- (d) Jumbo-Pfandbriefe must be placed by a syndicate consisting of at least five banks (syndicate banks).
- (e) The syndicate banks act as market makers; in addition to their own system, they pledge to quote prices upon application and bid/ask (two-way) prices at the request of investors on an electronic trading platform and in telephone trading.
- (f) The syndicate banks pledge to report daily for each Jumbo-Pfandbrief outstanding (life to maturity from 24 months upwards) the spread versus asset swap. The average spreads, which are calculated for each Jumbo-Pfandbrief by following a defined procedure, are published on the website of the Verband Deutscher Pfandbriefbanken (www.pfandbrief.de).
- (g) A subsequent transfer to the name of an investor is not permitted (restriction on transferability). It is permitted to buy back securities for redemption purposes or in the context of monitoring the cover pool if the outstanding volume of the issue does not fall below Euro 1,000,000,000 at any time. The issuer must publicly announce any buyback, the planned volume thereof and the issue envisaged for repurchase at least 3 banking days in advance, and make sure that extensive transparency is given in the market. Once a buyback transaction has been carried out, it is not permitted to increase the issue in question for a period of one year.
- (h) If one of the requirements stated in the above provisions is not met, the issue will lose its Jumbo-Pfandbrief status. Jumbo-Pfandbriefe which were issued before 28 April 2004 and have a volume of less than Euro 1,000,000,000 retain status of a Jumbo-Pfandbrief notwithstanding (a) above, provided that the other requirements in the above provisions are fulfilled.

The Minimum Requirements are supplemented by additional recommendations (*Empfehlungen* - "**Recommendations**") and a code of conduct applicable to issuers of Jumbo-Pfandbriefe (*Wohlverhaltensregeln für Emittenten* - "**Code of Conduct**"). Neither the Recommendations nor the Code of Conduct are statutory provisions.

TAXATION

Taxation in Germany

The following is a general discussion of certain German tax consequences of the acquisition, the ownership and the sale, assignment or redemption of Securities and the receipt of interest thereon. This discussion does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase Securities. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the laws of the Federal Republic of Germany currently in force and as applied on the date of this Base Prospectus, which are subject to change, possibly with retroactive or retrospective effect.

The law as currently in effect provides for a reduced tax rate for certain investment income. The coalition agreement between the German christdemocratic party and the German socialdemocratic party for the formation of a new German federal government provides that the flat tax regime shall be partially abolished. The coalition agreement further specifies that the solidarity surcharge shall be abolished in stages provided that the individual income does not exceed certain thresholds. There is however no draft bill available yet and a lot of details are hence still unclear.

PROSPECTIVE PURCHASERS OF SECURITIES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX CONSEQUENCES OF THE ACQUISITION, OWNERSHIP AND SALE, ASSIGNMENT OR REDEMPTION OF SECURITIES AND THE RECEIPT OF INTEREST THEREON, INCLUDING THE EFFECT OF ANY STATE OR LOCAL TAXES, UNDER THE TAX LAWS APPLICABLE IN THE FEDERAL REPUBLIC OF GERMANY.

Tax Residents

Private Investors

Interest and Capital Gains

Interest payable on the Securities to persons holding the Securities as private assets ("**Private Investors**") who are tax residents of Germany (i.e. persons whose residence or habitual abode is located in Germany) qualifies as investment income (*Einkünfte aus Kapitalvermögen*) according to § 20 (1) of the German Income Tax Act (*Einkommensteuergesetz*) and is, in general, taxed at a separate flat tax rate of 25% according to § 32d (1) German Income Tax Act (*Abgeltungsteuer*, in the following also referred to as "**Flat Tax**"), plus 5.5% solidarity surcharge ("**Solidarity Surcharge**", *Solidaritätszuschlag*) thereon and, if applicable, church tax. Capital gains from the sale, assignment or redemption of the Securities, including the original issue discount of the Securities, if any, and interest having accrued up to the disposition of the Securities and credited separately ("**Accrued Interest**", *Stückzinsen*), if any, also qualify – irrespective of any holding period – as investment income pursuant to § 20 (2) German Income Tax Act and are also generally taxed at the Flat Tax rate plus 5.5% Solidarity Surcharge thereon and, if applicable, church tax. If the Securities are assigned, redeemed, repaid or contributed into a corporation by way of a hidden contribution (*verdeckte Einlage in eine Kapitalgesellschaft*) rather than sold, as a rule, such transaction is treated like a sale. If interest claims are disposed of separately (i.e. without the Securities), the proceeds from the disposal are subject to tax. The same applies to proceeds from the payment of interest claims if the Securities have been disposed of separately.

Capital gains are determined by taking the difference between the sale, assignment or redemption price (after the deduction of expenses directly and factually related to the sale, assignment or redemption) and the issue or acquisition price of the Securities. Where the Securities are issued in a currency other than Euro the sale, assignment or redemption price and the acquisition costs have to be

converted into Euro on the basis of the foreign exchange rates prevailing on the issue or acquisition date and the sale, assignment or redemption date respectively.

If the Issuer exercises the right to substitute the debtor of the Securities, the substitution might, for German tax purposes, be treated as an exchange of the Securities for new securities issued by the new debtor. Such a substitution could result in the recognition of a taxable gain or loss for the respective investors. The Substitute Debtor is obligated to indemnify each holder of the Securities for any tax incurred by such holder as a result of a substitution of the Issuer pursuant to the relevant provisions as set out in the Terms and Conditions. The indemnities to be paid may constitute taxable income for German tax purposes.

Expenses (other than such expenses directly and factually related to the sale, assignment or redemption) related to interest payments or capital gains under the Securities are – except for a standard lump sum (*Sparer-Pauschbetrag*) of 801 Euro (1,602 Euro for jointly assessed holders) – not deductible.

According to the Flat Tax regime losses from the sale, assignment or redemption of the Securities can only be set-off against other investment income including capital gains. If the set-off is not possible in the assessment period in which the losses have been realised, such losses can be carried forward into future assessment periods only and can be set-off against investment income including capital gains generated in these future assessment periods.

Further, the German Federal Ministry of Finance in its decree dated 18 January 2016 (IV C 1 – S 2252/08/10004 :17) (as amended) has taken the position that a bad debt loss (*Forderungsausfall*) and a waiver of a receivable (*Forderungsverzicht*) shall, in general, not be treated as a sale, so that losses suffered upon such bad debt loss or waiver shall not be deductible for tax purposes. Moreover, the German Federal Ministry of Finance holds the view that a disposal (*Veräußerung*) (and, as a consequence, a tax loss resulting from such disposal) shall not be recognised if (i) the sales price does not exceed the actual transaction cost or (ii) the level of transaction costs is restricted because of a mutual agreement that the transaction costs are calculated by subtracting a certain amount from the sales price. This view has however been challenged by a judgement of the German Federal Court of Finance published in 2018; it is not yet clear whether the decision will be generally applied by the tax authorities. Furthermore, the German Federal Court of Finance recently decided that a final bad debt loss with respect to a capital claim shall be deductible for tax purposes (court decision dated 24 October 2017, VIII R 13/15); the question whether this also applies to a waiver of a receivable has been left open by the court. This new ruling has not been officially published in the Federal Tax Gazette (*Bundessteuerblatt*) as this requires the coordination of the supreme tax authorities of the federation and the German states. As this has not taken place yet, the ruling should therefore not be used apart from the specific case which was decided by the court (regional finance office North Rhine-Westphalia, information note (income tax) no. 01/2018 dated 23 January 2018).

Withholding

If the Securities are held in custody with or administrated by a German credit institution, financial services institution (including a German permanent establishment of such foreign institution), securities trading company or securities trading bank ("**Disbursing Agent**", *auszahlende Stelle*), the Flat Tax at a rate of 25% (plus 5.5% Solidarity Surcharge thereon and, if applicable, church tax) will be withheld by the Disbursing Agent on interest payments and the excess of the proceeds from the sale, assignment or redemption (after the deduction of expenses directly and factually related to the sale, assignment or redemption) over the issue or acquisitions costs for the Securities (if applicable converted into Euro terms on the basis of the foreign exchange rates as of the acquisition date and the sale, assignment or redemption date respectively). Church tax is collected by way of withholding as a standard procedure unless the Private Investor has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office.

The Disbursing Agent will provide for the set-off of losses with investment income including capital gains from other securities. If, in the absence of sufficient current investment income derived through the same Disbursing Agent, a set-off is not possible, the holder of the Securities may – instead of having a loss carried forward into the following year – file an application with the Disbursing Agent until 15 December of the current fiscal year for a certification of losses in order to set-off such losses with investment income derived through other institutions in the holder's personal income tax return. If custody has changed since the acquisition and the acquisition data is not proved as required by § 43a (2) German Income Tax Act or not relevant, the Flat Tax rate of 25% (plus 5.5% Solidarity Surcharge thereon and, if applicable, church tax) will be imposed on an amount equal to 30% of the proceeds from the sale, assignment or redemption of the Securities.

In the course of the tax withholding provided for by the Disbursing Agent foreign taxes may be credited in accordance with the German Income Tax Act.

In general, no Flat Tax will be levied if the holder of a Security filed a withholding exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent (in the maximum amount of the standard lump sum of 801 Euro (1,602 Euro for jointly assessed holders)) to the extent the income does not exceed the maximum exemption amount shown on the withholding exemption certificate. Similarly, no Flat Tax will be deducted if the holder of the Security has submitted to the Disbursing Agent a valid certificate of non-assessment (*Nichtveranlagungsbescheinigung*) issued by the competent local tax office.

For Private Investors the withheld Flat Tax is, in general, definitive. Exceptions apply, if and to the extent the actual investment income exceeds the amount which was determined as the basis for the withholding of the Flat Tax by the Disbursing Agent. In such case, the exceeding amount of investment income must be included in the Private Investor's income tax return and will be subject to the Flat Tax in the course of the assessment procedure. According to the decree of the German Federal Ministry of Finance dated 18 January 2016 (IV C 1 – S 2252/08/10004 :017) (as amended), however, any exceeding amount of not more than 500 Euro per assessment period will not be claimed on grounds of equity, provided that no other reasons for an assessment according to § 32d (3) German Income Tax Act exist. Further, Private Investors may request their total investment income, together with their other income, to be subject to taxation at their personal, progressive income tax rate rather than the Flat Tax rate, if this results in a lower tax liability. According to § 32d (2) no. 1 German Income Tax Act the Flat Tax rate will also not be available in situations where an abuse of the Flat Tax rate is assumed (e.g. "back-to-back" financing). In order to prove investment income and the withheld Flat Tax thereon, the investor may request a respective certificate in officially required form from the Disbursing Agent.

Investment income not subject to the withholding of the Flat Tax (e.g. since there is no Disbursing Agent) must be included into the personal income tax return and will be subject to the Flat Tax rate of 25% (plus 5.5% Solidarity Surcharge thereon and, if applicable, church tax), unless the investor requests the investment income to be subject to taxation at the lower personal, progressive income tax rate or the investment income is not subject to the Flat Tax rate according to § 32d (2) no. 1 German Income Tax Act. Foreign taxes on investment income may be credited in accordance with the German Income Tax Act.

Business Investors

Interest payable on the Securities to persons holding the Securities as business assets ("**Business Investors**") who are tax residents of Germany (i.e. Business Investors whose residence, habitual abode, statutory seat or place of effective management and control is located in Germany) and capital gains from the sale, assignment or redemption of the Securities, including any issue discount of the Securities and Accrued Interest, if any, are subject to income tax at the Business Investor's personal, progressive income tax rate (plus 5.5% Solidarity Surcharge thereon and, if applicable, church tax) or, in case of corporate entities, to corporation tax at a uniform 15% tax rate (plus 5.5 % Solidarity Surcharge thereon). Such interest payments and capital gains may also be subject to trade tax if the

Securities form part of the property of a German trade or business. Losses from the sale, assignment or redemption of the Securities are in general recognised for tax purposes.

Withholding tax, if any, including Solidarity Surcharge thereon is credited as a prepayment against the Business Investor's personal, progressive or corporate income tax liability and the Solidarity Surcharge in the course of the tax assessment procedure, i.e. the withholding tax is not definitive. Any potential surplus will be refunded. However, in general and subject to further requirements no withholding deduction will apply to the gains from the sale, assignment or redemption of the Securities if (i) the Securities are held by a corporation, association or estate in terms of § 43 (2) sentence 3 no. 1 German Income Tax Act or (ii) the proceeds from the Securities qualify as income of a domestic business and the investor notifies this to the Disbursing Agent by use of the required official form according to § 43 (2) sentence 3 no. 2 German Income Tax Act (*Erklärung zur Freistellung vom Kapitalertragsteuerabzug*).

Foreign taxes may be credited in accordance with the German Income Tax Act. Alternatively, foreign taxes may also be deducted from the tax base for German income tax purposes.

Non-residents

Interest payable on the Securities and capital gains, including any issue discount and Accrued Interest, if any, are not subject to German taxation, unless (i) the Securities form part of the business property of a permanent establishment, including a permanent representative, or a fixed base maintained in Germany by the holder of the Securities or (ii) the interest income otherwise constitutes German-source income. In the cases (i) and (ii) a tax regime similar to that explained above under "*Tax Residents*" applies.

Non-residents of Germany are, subject to certain exceptions, exempt from German withholding tax and the Solidarity Surcharge thereon, even if the Securities are held in custody with a Disbursing Agent. However, where the investment income is subject to German taxation as set forth in the preceding paragraph and the Securities are held in a custodial account with a Disbursing Agent withholding tax is levied as explained above under "*Tax Residents*".

The withholding tax may be refunded based upon German national tax law or an applicable tax treaty.

Particularities of Securities with a negative yield

Holders will only realize a taxable capital gain if they receive, upon a disposal of the Securities, an amount in excess of the issue price (or the purchase price they paid for the Securities).

Contrary thereto, holders who subscribe the Securities at the issue price and hold the Securities until their final maturity will realize a loss. The tax treatment of such losses is not entirely clear:

If the Securities are held by tax residents as private assets, recently published statements of the German tax authorities regarding "negative interest" incurred on bank deposits made by private investors arguably imply that such losses cannot be fully deducted; such losses are rather treated as expenses in connection with investment income and, are, consequently not tax-deductible except for the standard lump sum deduction (*Sparer-Pauschbetrag*) of € 801 (€ 1,602 for married couples filing jointly).

If the Securities are held by tax residents as business assets, arguably such losses are generally tax deductible.

Inheritance and Gift Tax

No inheritance or gift taxes with respect to the Securities will arise under the laws of Germany, if, in the case of inheritance tax, neither the decedent nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of Germany and such Securities are not attributable to a trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German expatriates.

Other Taxes

No stamp, issue, registration or similar taxes or duties will be payable in Germany in connection with the issuance, delivery or execution of the Securities. Currently, net assets tax (*Vermögenssteuer*) is not levied in Germany.

Germany and other Member States of the European Union intend to introduce a financial transaction tax ("FTT"). However, it is unclear if and in what form such tax will be actually introduced. Recent press releases suggest that the scope of the FTT may be limited to share transactions so that the trading of Securities would not be subject to the FTT.

Repeal of the EU Savings Tax Directive and Introduction of the Extended Automatic Exchange of Information Regime

The Council of the European Union has adopted a Directive repealing the Council Directive 2003/48/EC on the taxation of savings income from 1 January 2016 (1 January 2017 in the case of Austria). The Council of the European Union has also adopted Directive 2014/107/EU ("**Amending Cooperation Directive**"), amending Directive 2011/16/EU on administrative cooperation in the field of taxation so as to introduce an extended automatic exchange of information regime in accordance with the Global Standard released by the OECD Council in July 2014. Germany has implemented the Amending Cooperation Directive by means of a Financial Account Information Act (*Finanzkonten-Informationsaustauschgesetz, FKAustG*) according to which it will provide information on financial accounts to EU Member States and certain other states as of 1 January 2016.

Taxation in Luxembourg

The following information is of a general nature and is included herein solely for preliminary information purposes. It is a description of *certain material Luxembourg tax consequences of purchasing, owning and disposing of the Securities*. It does not purport to be a comprehensive description of all of the tax considerations that may be relevant to any prospective investor and may not include tax considerations that arise from rules of general application or that are generally assumed to be known by Holders. This information is based on the laws in force in Luxembourg on the date of this Prospectus and is subject to any change in law that may take effect after such date. It is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Securities should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Please be aware that the residence concept used below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a tax, duty, levy impost or other charge or withholding of a similar nature refers to Luxembourg tax law and/or concepts only. Also, please note that a reference to Luxembourg income tax encompasses corporate income tax (*impôt sur le revenu des collectivités*), municipal business tax (*impôt commercial communal*), a solidarity surcharge (*contribution au fonds pour l'emploi*), as well as personal income tax (*impôt sur le revenu*) generally. Corporate Holders may further be subject to net wealth tax (*impôt sur la fortune*) as well as other duties, levies or taxes. Corporate income tax, municipal business tax as well as the solidarity surcharge invariably apply to most corporate taxpayers resident of Luxembourg for tax purposes. Individual tax

payers are generally subject to personal income tax and a solidarity surcharge. Under certain circumstances, where an individual taxpayer acts in the course of the management of a professional or business undertaking, municipal business tax may apply as well.

Luxembourg tax residency of the Holders

A Holder will not become resident, nor be deemed to be resident, in Luxembourg by reason only of the holding of the Securities, or the execution, performance, delivery and/or enforcement of the Securities.

Withholding Tax

All payments of interest and principal by the Issuer in the context of the holding, disposal, redemption or repurchase of the Securities can be made free of withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein in accordance with applicable law, subject however to the application of the Luxembourg law of December 23, 2005 as amended introducing a final tax on certain payments of interest made to certain Luxembourg resident individuals (the "**Law**").

Payment of interest or similar income (within the meaning of the Law) on debt instruments made or deemed made by a paying agent (within the meaning of the Law) established in Luxembourg to or for the benefit of an individual Luxembourg resident for tax purposes who is the beneficial owner of such payment may be subject to a final tax at a rate of 20 per cent. Such final tax will be in full discharge of income tax if the individual beneficial owner acts in the course of the management of his/her private wealth. Responsibility for the withholding and payment of the tax lies with the Luxembourg paying agent.

Taxation of the Holders

Taxation of Luxembourg non-residents

Holders who are non-residents of Luxembourg and who have neither a permanent establishment, a fixed place of business nor a permanent representative in Luxembourg to which the Securities are attributable are not liable to any Luxembourg income tax, whether they receive payments of principal or interest (including accrued but unpaid interest) or realize capital gains upon redemption, repurchase, sale or exchange of any Securities.

Holders who are non-residents of Luxembourg and who have a permanent establishment, a fixed place of business or a permanent representative in Luxembourg to which the Securities are attributable have to include any interest received or accrued, redemption premiums or issue discounts, as well as any capital gain realised on the sale or disposal of the Securities in their taxable income for Luxembourg income tax assessment purposes.

Income taxation of Luxembourg residents

Luxembourg resident individuals

A Luxembourg resident individual Holder, acting in the course of the management of his/her private wealth, is subject to Luxembourg income tax in respect of interest received, redemption premiums or issue discounts under the Securities, except if a withholding tax has been levied by the Luxembourg paying agent on such payments or, in the case of a non-resident paying agent, established in another EU Member State or in a Member State of the EEA which is not an EU Member State, if such individual has opted for the 20 per cent. levy, in accordance with the Law.

Under Luxembourg domestic tax law, gains realised upon the sale, disposal or redemption of the Securities by a Luxembourg resident individual Holder, who acts in the course of the management of

his/her private wealth, on the sale or disposal, in any form whatsoever, are not subject to Luxembourg income tax, provided (i) this sale or disposal took place at least six months after the acquisition of the Securities and (ii) the Securities do not constitute Zero Coupon Securities. A Luxembourg resident individual Holder, who acts in the course of the management of his/her private wealth, has further to include the portion of the gain corresponding to accrued but unpaid income in respect of the Securities (which do not constitute Zero Coupon Securities) in his/her taxable income, insofar as the accrued but unpaid interest is indicated separately in the agreement, except if tax has been levied on such interest in accordance with the law. A gain realised by a Luxembourg resident individual Holder acting in the course of the management of his/her private wealth upon the sale of Zero Coupon Securities before maturity must be included in his/her taxable income for Luxembourg income tax assessment purposes.

A Luxembourg resident individual Holder acting in the course of the management of a professional or business undertaking to which the Securities are attributable, has to include interest and gains realised on the sale or disposal of the Securities in his/her taxable income for Luxembourg income tax assessment purposes. Taxable gains are determined as being the difference between the sale, repurchase or redemption price (including accrued but unpaid interest) and the lower of the cost or book value of the Securities sold or redeemed.

Luxembourg resident companies

A Luxembourg resident company Holder must include interest and gains realised on the sale or disposal of the Securities in its taxable income for Luxembourg income tax assessment purposes. Taxable gains are determined as being the difference between the sale, repurchase or redemption price (including accrued but unpaid interest) and the lower of the cost or book value of the Securities sold or redeemed.

Luxembourg resident companies benefiting from a special tax regime

Luxembourg resident company Holders who benefit from a special tax regime, such as, for example, (i) undertakings for collective investment subject to the law of December 17, 2010 (amending the law of December 20, 2002), (ii) specialised investment funds subject to the law dated February 13, 2007 (as amended) or (iii) family wealth management companies subject to the law dated May 11, 2007 (as amended) or (iv) reserved alternative investment funds subject to the law dated July 23, 2016 and falling under the so-called specialised investment funds tax regime, are exempt from income tax in Luxembourg and thus income derived from the Securities, as well as gains realised thereon, are not subject to Luxembourg income taxes.

Net Wealth Tax

A Luxembourg resident company Holders or a non-resident Holders who has a permanent establishment or a permanent representative in Luxembourg to which the Securities are attributable, is subject to Luxembourg wealth tax on such Securities, except if the Holder is (i) a resident or nonresident individual taxpayer, (ii) an undertaking for collective investment subject to the law dated December 17, 2010 (amending the law dated December 20, 2002), (iii) a securitisation company governed by the law of March 22, 2004 on securitisation (as amended), (iv) a company governed by the law of June 15, 2004 on venture capital vehicles (as amended), (v) a specialised investment fund subject to the law of February 13, 2007 (as amended), or (vi) a family wealth management company subject to the law of May 11, 2007 (as amended) or (vii) a reserved alternative investment fund governed by the law of July 23, 2016 on reserved alternative investment funds. However, if the Holder is a vehicle listed above under (iii), (iv) or is a reserved alternative investment fund having elected for the so-called venture capital vehicle tax regime, as from 1 January 2016, it might still be subject (a) to a minimum net wealth tax of EUR 4,815 if it holds assets such as fixed financial assets, receivables owed to affiliated companies, transferable securities, postal checking accounts, checks and cash, in a proportion that exceeds 90 % of its total balance sheet value and if the total of such assets exceeds EUR 350,000 or (b) to a minimum net wealth tax between EUR 535 and EUR 32,100 based on the total amount of its assets.

Other Taxes

Registration taxes and stamp duties

There is no Luxembourg registration tax, stamp duty or any other similar tax or duty payable in Luxembourg by the Holders as a consequence of the issuance of the Securities, nor will any of these taxes be payable as a consequence of a subsequent transfer, redemption or repurchase of the Securities, provided that the relevant issuance, transfer, redemption or repurchase is not registered in Luxembourg, which is not mandatory.

Value added tax

There is no Luxembourg value added tax payable in respect of payments in consideration for the issuance of the Securities or in respect of the payment of interest or principal under the Securities or the transfer of the Securities.

Inheritance tax and gift tax

No estate or inheritance taxes are levied on the transfer of the Securities upon death of a Holder in cases where the deceased was not a resident of Luxembourg for inheritance tax purposes. Where a Holder is a resident of Luxembourg for tax purposes at the time of his/her death, the Securities are included in his/her taxable estate for inheritance tax assessment purposes. Gift tax may be due on a gift or donation of Securities if the gift is recorded in a deed passed in front of a Luxembourg notary or otherwise registered in Luxembourg.

Luxembourg Taxation - Automatic Exchange of Information

The Organization for Economic Co-operation and Development (the "OECD") has developed a single global Standard for Automatic Exchange of Financial Account Information in Tax Matters to achieve a comprehensive and multilateral automatic exchange of information on a global basis. On 9 December 2014, the European Council of Economic and Financial Affairs adopted Directive 2014/107/EU amending the Directive on Administrative Cooperation in the Field of Taxation 2011/16/EU (the "DAC") implementing the aforementioned Standard among the Member States by enlarging the scope of the mandatory and automatic exchange of information (the "AEI") between Member States' tax administrations with effect as from the 1st of January 2016 (2017 in Austria). The DAC was implemented into Luxembourg law by the law of 18 December 2015 on the automatic exchange of financial account information in the field of taxation. Directive 2011/16/EU was subsequently amended by Directive 2016/2258 of 6 December 2016, which was implemented into Luxembourg law by the law of 1 August 2018.

The revised DAC requires Luxembourg Financial Institutions (the "FIs"), broadly defined, including investment funds and custodian institutions, to report information concerning direct account holders and controlling persons of passive non financial entities, who are resident in another E.U. Member State, and information concerning their account at stake and the payments they received to the FI's tax authority. The additional information is related to interest, dividends, and other income from assets held by a custodial institution, sales and redemption proceeds from financial assets, as well as financial information such as aggregated annual accounts data. FIs are required to identify tax residency of account holders and investors and to annually report financial account information as from 1 January 2016.

A number of non-EU countries, and certain dependent or associated territories of certain Member States, have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a person within their jurisdiction to, or collected by such person for, an individual resident in a Member State. In addition, the Member States have entered into reciprocal provision of information arrangements or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a

Member State to, or collected by such person for, an individual resident in one of those territories. Some of those measures have been revised to be aligned with the DAC and other such measures may be similarly revised in the future.

Investors should inform themselves of, and where appropriate take advice on, the impact of the DAC on their investment.

FATCA (*Foreign Account Tax Compliance Act*)

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended, ("**FATCA**") impose a reporting regime and potentially a 30 per cent. withholding tax with respect to certain payments to any non-U.S. financial institution (a "**foreign financial institution**", or "**FFI**" (as defined by FATCA)) that does not enter into an agreement with the U.S. Internal Revenue Service ("**IRS**") to provide the IRS with certain information in respect of its account holders and investors (such FFI by entering into an agreement becoming a "**Participating FFI**") or is not otherwise exempt from or in deemed compliance with FATCA. The Issuer will be classified as an FFI.

The withholding regime has been phased in beginning on 1 July 2014 for payments from sources within the United States of America and will apply to "foreign passthru payments" (a term not yet defined) no earlier than on and after the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register. This withholding would potentially apply to payments in respect of any Securities that are characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued after the "**Grandfathering Date**", which is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, or which are materially modified for U.S. federal income tax purposes after the Grandfathering Date.

The United States of America (the "**U.S.**") have entered into intergovernmental agreements or reached intergovernmental agreements in principal with many other jurisdictions, including the Federal Republic of Germany ("**Germany**"), which modify the application of the rules to FFIs in such jurisdictions. Under the Agreement between the United States of America and the Federal Republic of Germany to Improve International Tax Compliance and with respect to the United States Information and Reporting Provisions Commonly Known as the Foreign Account tax Compliance Act (the "**German IGA**"), an entity classified as an FFI that is treated as resident in Germany is expected to provide the German tax authorities with certain information on U.S. holders of its securities. Information on U.S. holders will be automatically exchanged with the IRS. The Issuer is an FFI and provided it complies with the requirements of the German IGA and the German legislation implementing the German IGA, it should not be subject to FATCA withholding on any payments it receives and it should not be required to withhold tax on any "foreign passthru payments" that it makes.

Although the Issuer will attempt to satisfy any obligations imposed on it to avoid the imposition of the FATCA withholding tax, no assurance can be given that the Issuer will be able to satisfy these obligations. Accordingly, the Issuer and financial institutions through which payments on the Securities are made may be required to withhold FATCA Withholding if any FFI through or to which payment on such Securities is made is not a Participating FFI, or otherwise exempt from or in deemed compliance with FATCA.

The application of FATCA to interest, principal or other amounts paid with respect to the Securities is not clear. If FATCA were to require that an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, principal or other payments on (or with respect to) the Securities, then neither the Issuer, any paying agent nor any other person would, pursuant to the Terms and Conditions of the Securities, be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, investors may, if FATCA is implemented as currently proposed by the IRS, receive less interest or principal than expected.

Part G
Subscription and Sale

SUBSCRIPTION AND SALE

Subject to the terms and conditions contained in the programme agreement dated 15 May 2019 (the "**Programme Agreement**") between ING-DiBa AG and ING Bank N.V., the Securities will be offered by the Issuer to the dealer(s) appointed from time to time in respect of one or more Tranches (each a "**Dealer**" and, together, the "**Dealers**"). The Securities may be sold by the Issuer through the Dealers, acting as agents of the Issuer, or directly without any Dealer. The Programme Agreement also provides for Securities to be issued in Series of Securities which are severally and not jointly underwritten by two or more Dealers.

The Issuer has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Securities. The Programme Agreement may be terminated by any party at any time on giving not less than ten business days' notice.

United States of America

The Securities have not been and will not be registered under the U.S. Securities Act of 1933 as amended (the "**Securities Act**") and may not be offered or sold within the United States (as defined in Rule 902 of Regulation S) or to, or for the account or benefit of, U.S. persons (as defined in Rule 902 of Regulation S) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. Each Dealer has represented and agreed that it has offered and sold the Securities of any Tranche, and will offer and sell the Securities of any Tranche (i) as part of its distribution at any time and (ii) otherwise until 40 days after completion of the distribution of such Tranche as determined, and such completion is notified to each relevant Dealer, by the Fiscal Agent or, in the case of a Syndicated Issue, the lead manager, only in accordance with Rule 903 of Regulation S under the Securities Act. Accordingly, each Dealer has represented and agreed that neither it, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts (as defined in Rule 902 of Regulation S) with respect to the Securities, and it and they have complied and will comply with the offering restrictions (as defined in Rule 902 of Regulation S) requirement of Regulation S. Each Dealer has agreed to notify the Fiscal Agent or, in the case of a Syndicated Issue, the lead manager when it has completed the distribution of its portion of the Securities of any Tranche so that the Fiscal Agent or, in the case of a Syndicated Issue, the lead manager may determine the completion of the distribution of all Securities of that Tranche and notify the other relevant Dealers (if any) of the end of the distribution compliance period (as defined in Rule 902 of Regulation S). Each Dealer agrees that, at or prior to confirmation of sale of Securities, it will have sent to each distributor (as defined in Rule 902 of Regulation S), dealer or person receiving a selling concession, fee or other remuneration that purchases Securities from it during the distribution compliance period a confirmation or notice to substantially the following effect:

"The Securities covered hereby have not been registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**") and may not be offered and sold within the United States or to, or for the account or benefit of, U.S. persons (i) as part of their distribution at any time or (ii) otherwise until 40 days after completion of the distribution of this tranche of Securities as determined, and notified to [relevant Dealer], by the [Fiscal Agent/Lead Manager]. Terms used above have the meanings given to them by Regulation S under the Securities Act."¹⁰

Terms used in the paragraphs above have the meanings given to them by Regulation S under the Securities Act.

¹⁰ The square brackets do not represent alternatives to be applied by the Issuer in specific issuances, rather they are included to indicate places in which the relevant Dealer is to fill in the appropriate names in any such legend provided to any distributor as required by Regulation S.

Each Dealer has represented and agreed that it has not entered and will not enter into any contractual arrangement with respect to the distribution or delivery of Securities within the United States of America, except with its affiliates or with the prior written consent of the Issuer.

Securities in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and regulations thereunder.

Securities will be issued in accordance with the provisions of U.S. Treasury Regulation Section 1.163-5 (c) (2) (i) (D) (or substantially identical successor regulations) (the "**D Rules**").

In addition, in respect of Securities issued in accordance with the D Rules, each Dealer has represented and agreed that:

- (i) except to the extent permitted under U.S. Treasury Regulation Section 1.163-5 (c) (2) (i) (D), (i) it has not offered or sold, and during the restricted period will not offer or sell, Securities in bearer form to a person who is within the United States or its possessions or to a United States person, and (ii) such Dealer has not delivered and will not deliver within the United States or its possessions definitive Securities in bearer form that are sold during the restricted period;
- (ii) it has and throughout the restricted period will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Securities in bearer form are aware that such Securities may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person, except as permitted by the D Rules;
- (iii) if such Dealer is a United States person, it has represented that it is acquiring the Securities in bearer form for purposes of resale in connection with their original issuance and if such Dealer retains Securities in bearer form for its own account, it will do so only in accordance with the requirements of U.S. Treasury Regulation Section 1.163-5 (c) (2) (i) (D) (6); and
- (iv) with respect to each affiliate that acquires Securities in bearer form from such Dealer for the purpose of offering or selling such Securities during the restricted period, such Dealer either (a) has repeated and confirmed the representations and agreements contained in sub-clauses (i), (ii) and (iii) on such affiliate's behalf or (b) has agreed that it will obtain from such affiliate for the benefit of the Issuer the representations and agreements contained in sub-clauses (i), (ii) and (iii).

Terms used in the above paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and regulations thereunder, including the D Rules.

The Issuer may agree with one or more Dealers for such Dealers to arrange for the sale of Securities under procedures and restrictions designed to allow such sales to be exempt from the registration requirements of the Securities Act.

Each Dealer has agreed that it will comply with all relevant laws, regulations and directives in each jurisdiction in which it purchases, offers, sells or delivers Securities or has in its possession or distributes the Base Prospectus or any other offering material.

European Economic Area

If the Final Terms in respect of any Securities specify "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, in relation to each Member State of the European Economic Area (the EU plus Iceland, Norway and Liechtenstein) which has implemented

the Prospectus Directive (each, a "**Relevant Member State**"), that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date) it has not made and will not make an offer of Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the final terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Securities to the public in that Relevant Member State:

- (a) if the final terms in relation to the Securities specify an offer of those Securities may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Securities which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the final terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) at any time to fewer than 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Securities referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an "**offer of Securities to the public**" in relation to any Securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression "**Prospectus Directive**" means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU, as amended), and includes the relevant implementing measure in each Relevant Member State.

Prohibition of Sales to EEA Retail Investors

Unless the Final Terms in respect of any Securities specify the "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area. For the purposes of this provision:

- a) the expression "retail investor" means a person who is one (or more) of the following:
- i. a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or
 - ii. a customer within the meaning of Directive 2016/97/EU (as amended, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - iii not a qualified investor as defined in Directive 2003/71/EC (as amended, the "**Prospectus Directive**"); and
- (b) the expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities.

- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Sec. 21 of the FSMA) received by it in connection with the issue or sale of any Securities in circumstances in which Sec. 21(1) of the FSMA does not apply to the Issuer; and
- (c) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Securities in, from or otherwise involving the United Kingdom.

Republic of Italy

The offering of the Securities has not been registered with the Commissione Nazionale per le Società e la Borsa ("**CONSOB**", i.e. the Italian Securities Regulator) pursuant to Italian securities legislation and, accordingly, no Securities may be offered, sold or delivered, nor may copies of this Prospectus or of any other document relating to the Securities be distributed in the Republic of Italy.

For the purposes of this provision, the expression "offer of Securities to the public" in Italy means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities, including the placement through authorised intermediaries.

Each Dealer has represented and agreed that it will not offer, sell or deliver, directly or indirectly, any Securities or distribute copies of this Prospectus or of any other document relating to the Securities in the Republic of Italy, except:

- (2) in other circumstances which are exempted from the rules on public offerings pursuant to Article 100 of the Italian Financial Services Act and its implementing CONSOB Regulations, including Article 34-ter of CONSOB Regulation No. 11971;
- (3) that it may offer, sell or deliver Securities or distribute copies of any prospectus relating to such Securities in an offer to the public in the period commencing on the date of publication of such prospectus, provided that such prospectus has been approved in another Relevant Member State and notified to CONSOB all in accordance with the Prospectus Directive, the Italian Financial Services Act and CONSOB Regulation No. 11971 and ending on the date which is 12 months after the date of publication of such prospectus.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that any offer, sale or delivery of the Securities or distribution of copies of this Base Prospectus, the Final Terms or any other document relating to the Securities in the Republic of Italy will be made in accordance with all Italian securities, tax and exchange control and other applicable laws and regulation.

Furthermore, any such offer, sale or delivery of the Securities or distribution of copies of this Base Prospectus or any other document relating to the Securities in the Republic of Italy must be in compliance with the selling restrictions above and:

- (a) made by investment firms, banks or financial intermediaries permitted to conduct such activities in the Republic of Italy in accordance with the relevant provisions of the Italian Financial Services Act, CONSOB Regulation No. 20307, Legislative Decree No. 385 of 1 September 1993, as amended (the "**Italian Banking Act**"), and any other applicable laws and regulations;

- (c) in compliance with any other applicable laws and regulations or requirements imposed, from time to time, by CONSOB or the Bank of Italy or any other Italian authority.

Any investor purchasing the Securities is solely responsible for ensuring that any offer, sale, delivery or resale of the Securities by such investor occurs in compliance with applicable Italian laws and regulations.

Provisions relating to the secondary market in Italy

Investors should also note that, in accordance with Article 100-*bis* of the Italian Financial Services Act, where no exemption from the rules regarding public offerings applies. Securities which are initially offered and placed in the Republic of Italy or abroad to qualified investors only but in the following year are regularly ("*sistematicamente*") distributed on the secondary market in the Republic of Italy to non-qualified investors become subject to the public offer and the prospectus requirement rules provided under the Italian Financial Services Act and the Issuers Regulation. Failure to comply with such rules may result in the sale of such Securities being declared null and void and in the liability of the intermediary transferring the Securities for any damages suffered by such non-qualified investors.

General:

No action has been taken in any jurisdiction that would permit a public offering of any of the Securities, or possession or distribution of the Base Prospectus or any other offering material or any Final Terms, in any country or jurisdiction where action for that purpose is required. The changes in cash funds are broken down into operating activities, investing activities and financing activities.

Cash flows from operating activities comprise cash flows that primarily relate to the Bank's revenue-generating activities or result from other activities that cannot be classified as investing or financing activities. Cash flows from investing activities result from proceeds and cash payments relating to tangible fixed assets, intangible fixed assets, and long-term securities. Cash flows from financing activities comprise cash flows from transactions with the parent and additions to the fund for general banking risks pursuant to section 340g HGB.

The cash flow statement is prepared pursuant to the requirements of German Accounting Standard (GAS) 21.

The cash flow statement is of limited use as an indicator of the Bank's liquidity situation. In this context, please refer to the information on liquidity management presented in the management report.

ING-DiBa AG,
Frankfurt am Main
Notes to the Financial
Statements for the
2018 Fiscal Year

1. General Disclosures Regarding the Annual Financial Statements

The annual financial statements of ING-DiBa, domiciled in Frankfurt am Main and registered under HRB 7727 in the commercial register at the Local Court (*Amtsgericht*) of Frankfurt am Main, have been prepared pursuant to the provisions of the German Commercial Code (*Handelsgesetzbuch*, "HGB"), the Regulation on the Accounting of Banks and Financial Services Institutions (*Verordnung über die Rechnungslegung der Kreditinstitute und Finanzdienstleistungsinstitute*, "RechKredV"), the German Mortgage Bond Act (*Pfandbriefgesetz*, "PfandBG"), and the German Stock Corporation Act (*Aktiengesetz*, "AktG").

The balance sheet and income statement are classified pursuant to the RechKredV forms.

2. Accounting Policies

2.1. General

Assets and liabilities are recognized and measured pursuant to sections 252 *et seq.* in conjunction with sections 340 *et seq.* HGB.

Loans and advances are measured pursuant to section 253 (1) sentence 1 HGB in conjunction with section 340e (2) HGB. Any difference between the principal amount and the amount paid out is recognized as deferred item and reversed as scheduled.

The risk provisions in the lending business comprise impairment allowances and provisions for acute and inherent credit risk. In addition, there are provisions for general banking risks pursuant to section 340f HGB.

All acute individual risks in the lending business are taken into account by recognizing specific impairment allowances and provisions. Specific impairment allowances calculated on a portfolio basis are recognized for direct credit risks on the basis of the credit risk models used by the Bank. General impairment allowances are recognized for inherent credit risks; these are also determined on the basis of the Bank's credit risk models. Provisions are recognized for inherent credit risks from off-balance sheet obligations.

In accordance with section 253 (1) sentence 2 HGB, liabilities are recognized at their settlement amount. Any difference between the nominal amount of liabilities and the amount paid out is recognized as a deferred item and reversed as scheduled.

2.1.1. Derivative financial instruments

Currency forwards, interest rate swaps, and cross-currency swaps are measured at the level of individual transactions. The rate for currency forwards comprises the spot exchange rate and the calculated swap rate. The swap rate is calculated as the difference between the spot exchange rate and the forward rate on the reporting date. It is unwound on a straight-line basis as an adjustment to interest cost over the remaining term of the currency forward. Provisions for expected losses are recognized for currency forwards if the current fair value is lower than the carrying amount.

The derivative financial instruments in the banking book used for hedging the general interest rate risk were not measured separately because they are included in the measurement of the banking book at net realizable value. By contrast, exchange differences from interest rate swaps in foreign currency are recognized.

Please see section 7.4.2 for a presentation of the hedges.

2.1.2. Measurement at net realizable value

Interest-bearing loans and advances, securities, and derivatives in the banking book are not usually remeasured due to changes in interest rates. Only securities assigned to the liquidity reserve and available-for-sale loans and advances are recognized at the strict lower of cost or market principle under the imparity principle. Nonetheless, for the purposes of accounting for the general interest rate risk management in the banking book, all receivables and refinancing funds in the banking book are measured in their entirety, taking into account changes in interest rates. The banking book has to be measured at net realizable value. A provision for expected losses is recognized if a loss is expected from the banking book due to a negative overall present value.

The Bank uses the net present value method to determine any future excess obligation. The calculation as of December 31, 2018 revealed that the net present value of the banking book exceeds the carrying amount significantly. Therefore, as of December 31, 2018, there is no need to recognize a provision for expected losses from banking book transactions.

2.1.3. Deferred taxes

If there are differences between the carrying amounts of assets, liabilities, deferred income, and prepaid expenses recognized in the financial statements and their tax bases, and these differences are expected to reverse in subsequent fiscal years, any resulting net tax burden is recognized as a deferred tax liability in the balance sheet pursuant to section 274 (1) HGB. Any resulting net tax credit may be recognized as a deferred tax asset in the balance sheet.

ING-DiBa AG did not recognize any deferred taxes in the fiscal year under review.

2.1.4. Tax allocation

Since 2017, there has been an income tax allocation agreement for the tax group with ING Holding Deutschland GmbH, Frankfurt am Main, which is the tax group parent. The tax allocations payable to the tax group parent are used to cover the liquidity required to make various tax payments. The tax allocations are determined in a way that ensures that the tax burden is allocated fairly within the income tax group to those responsible for the tax and in a way that makes business sense.

2.1.5. Restrictions on distributions and transfers

In order to protect creditors, restrictions on distribution and transfer must be observed pursuant to section 268 (8) HGB and section 301 AktG. Section 253 (6) HGB includes a restriction on distribution, which pursuant to section 301 AktG does not lead to a restriction on transfer.

Pursuant to section 268 (8) HGB in conjunction with section 301 AktG, EUR 33.8 million (PY: EUR 28.3 million) was subject to restrictions on distribution and transfer as of the balance sheet date. Of this amount, EUR 28.8 million related to internally generated intangible fixed assets recognized pursuant to section 248 (2) HGB and EUR 5.0 million to the fair values of plan assets in excess of historical cost pursuant to section 246 (2) HGB.

Pursuant to section 253 (2) HGB, provisions for pension benefit obligations have been recognized based on the average market interest rate for the past ten fiscal years since the December 31, 2016 reporting date. Pursuant to section 253 (6) HGB, the difference must be calculated between this approach and the previous approach, which was based on the average market interest rate for the past seven fiscal years. The resulting positive difference is restricted from distribution. This led to an amount restricted from distribution of EUR 20.1 million as of December 31, 2018 (PY: EUR 19.1 million).

The restricted amount reduces the maximum distributable or transferable amount. The distributable capital reserves pursuant to section 272 (2) no. 4 HGB and the retained earnings amounted to EUR 4.2 billion (PY: EUR 4.2 billion). Consequently, a maximum of EUR 4.1 billion (PY: EUR 4.1 billion) was distributable and a maximum of EUR 4.2 billion (PY: EUR 4.1 billion) was transferable under commercial law as of December 31, 2018.

This means that the restrictions on distribution or transfer described above do not have any effect on the profit after tax allocation (EUR 386.7 million; PY: EUR 356.6 million) to be transferred.

	Dec. 31, 2018 EUR million	Dec. 31, 2017 EUR million
Restrictions on distributions and transfers pursuant to section 268 (8) HGB in conjunction with section 301 AktG	33.8	28.3
Internally generated intangible fixed assets	28.8	19.8
Fair values of plan assets in excess of historical cost pursuant to section 246 (2) HGB	5.0	8.5
Restrictions on distributions pursuant to section 253 (6) HGB	20.1	19.1
Difference (gain) from changes in market interest rates	20.1	19.1
Total restrictions on distribution pursuant to the HGB	53.9	47.4

2.1.6. Currency translation

Currency translation for assets, liabilities, and off-balance sheet transactions is performed in accordance with section 340h HGB in conjunction with section 256a HGB. Accounts receivable and liabilities denominated in foreign currency, as well as spot dealings not yet settled are translated at the mean spot rate on the balance sheet date.

The rate for currency forwards comprises the spot exchange rate and the calculated swap rate. Changes in the spot exchange rate between the transaction date and the next balance sheet date are reported in other operating expenses or other operating income in the same way as exchange differences from spot dealings. The swap rate included in this amount is presented separately. This is unwound on a straight-line basis as an adjustment to interest cost over the remaining term of the currency forward.

The Bank manages currency risk as part of the special cover for the overall exposure per currency, which includes all on- and off-balance sheet foreign currency transactions.

2.2. Bonds and other fixed-income securities

The securities portfolio is recognized at cost plus accrued interest using the weighted average cost method. To the extent securities are allocated to the liquidity reserve and the securities are not hedged, they are recognized pursuant to the strict lower of cost or market principle (section 253 (4) HGB).

Long-term securities are measured at amortized cost and are intended to be held to maturity (section 253 (3) HGB). To the extent of being interest-related, the difference between cost and repayment amount is allocated proportionally over the residual maturity and presented as interest income from fixed-income securities and book-entry securities.

Impairment losses are reversed on long-term securities that have previously been reclassified from the liquidity reserve into the investment portfolio if the original reason for the impairment no longer exists and the quoted or market price as of the balance sheet date has increased again compared to the carrying amount. Amortized cost is the upper limit for such reversals.

As part of the initial application of IFRS 9, reclassification-related changes were made to the definition of the purpose of financial instruments, and these changes led to corresponding reclassifications of securities in the liquidity reserve and under long-term securities in the HGB financial statements. The securities were reclassified at the carrying amounts recognized in the previous annual financial statements. Securities with a nominal amount of EUR 6,705.5 million were reclassified from long-term securities to the liquidity reserve (reclassification carrying amount of EUR 6,830.8 million), while reclassifications to long-term securities affected securities with a nominal amount of EUR 2,999.0 million (reclassification carrying amount of EUR 2,995.9 million). Write-downs of EUR 76.8 thousand were avoided on securities reclassified to long-term securities in fiscal year 2018.

2.3. Equity investments and investments in affiliated companies

These items are measured at cost or lower net realizable value if impairment is expected to be permanent.

2.4. Intangible fixed assets

Intangible fixed assets are recognized at cost less amortization. No write-downs were necessary in the fiscal year.

2.4.1. Internally generated intangible fixed assets

Expenses incurred when developing internally generated software are capitalized provided that these expenses result in an asset being recognized. There are no borrowing costs incurred on these expenses.

2.4.2. Acquired goodwill

The goodwill acquired through the acquisition of Entrium Direct Bankers AG, Nuremberg, in 2003 was amortized over 15 years.

2.5. Tangible fixed assets

Tangible fixed assets are recognized at cost less depreciation based on the useful life. Low-value assets purchased during the fiscal year, the cost of which is between EUR 250 and EUR 1,000 (net), are allocated to a pooled item and depreciated over five years.

2.6. Prepaid expenses

Expenditure prior to the balance sheet date is reported as a prepaid expense, provided this represents an expense for a specific period after that date. Prepaid expense items are recognized for premiums and discounts from *Pfandbriefe* issued by ING-DiBa AG. These are reversed as scheduled in accordance with the utilization of capital.

In addition, brokerage commissions for mortgage loans are recognized as prepaid expenses and amortized over the respective interest rate period of the individual mortgage loans, however not more than ten years. Accruals are recognized for fair value settlement in Wholesale Banking (difference between nominal amount and cost due to changes in interest rates). This is amortized over the respective term of the loan agreements.

In addition, prepaid expenses are recognized for upfront payments from concluded hedging transactions. These are reversed ratably over the term of the hedging transaction.

2.7. Deferred income

Receipts prior to the balance sheet date that represent income for a specific period after that date are reported as deferred income. Deferred income items are recognized for discounts that will be reversed as scheduled in accordance with the utilization of capital.

Deferred income items are recognized for upfront payments from concluded hedging transactions. These are reversed ratably over the term of the hedging transaction.

Deferred income is also recognized for interest-induced loan processing fees and fair value settlement in Wholesale Banking (difference between nominal amount and cost due to changes in interest rates). This is amortized over the respective term of the loan agreements.

2.8. Provisions

2.8.1. Tax and other provisions

Pursuant to section 253 (1) HGB, tax and other provisions must be measured such that they take into account all discernible risks and obligations based on prudent business judgment considering future cost and price increases (settlement amount).

Provisions with a term of more than one year are discounted pursuant to section 253 (2) HGB over their residual term using the average market interest rate for the past seven fiscal years calculated by Deutsche Bundesbank.

2.8.2. Provisions for pensions and similar obligations

Provisions for pensions and similar obligations are calculated pursuant to recognized actuarial principles using the projected unit credit method. The Klaus Heubeck 2018 G mortality tables were used as the biometric basis, and additionally, the 2005 G mortality tables were used to calculate the difference between the old and the new biometric basis. The provisions are collectively discounted pursuant to section 253 (2) HGB using the average rate of interest of the past ten years (3.21 percent; PY: 3.68 percent) applicable to an assumed remaining term of 15 years. This discount rate is calculated and published each month by the Deutsche Bundesbank pursuant to the Regulation on the Discounting of Provisions (*Rückstellungsabzinsungsverordnung*, "RückAbzinsV"). Salary and pension adjustments of 2.75 percent and 1.75 percent, respectively, are included (PY: 2.75 percent and 1.75 percent, respectively). In addition to the obligations from current pensions and

the prospective entitlements existing at the balance sheet date, obligations for transitional benefits for early retirement (*Altersübergangsgeld*) are also recognized.

The difference to the amount calculated under the previous rule for pension provisions (seven years) is EUR 20.1 million (PY: EUR 19.1 million). A distribution restriction applies to this amount if it does not at least match the distributable reserves plus retained profits brought forward less any accumulated losses brought forward.

Pursuant to section 246 (2) HGB, assets that are exempt from attachment by all other creditors and that serve exclusively to settle liabilities from pension benefit obligations have to be offset against such liabilities. If the fair value of the assets exceeds the amount of liabilities, the excess amount must be recognized under a separate asset item.

Wholesale Banking's pension schemes consist of a contractual trust arrangement (CTA) and pension fund commitments.

These pension fund commitments are indirect pension obligations within the meaning of article 28 of the Introductory Act to the German Commercial Code (*Einführungsgesetz zum Handelsgesetzbuch*, "EGHGB"), for which there is basically a recognition option. ING-DiBa AG has decided to use the existing carrying amounts.

Any excess of pension obligations over the related plan assets is presented in the pension provisions. Any surplus of the plan assets over pension obligations are included in the asset item "Excess of plan assets over pension benefit liability."

This results in a pension obligation totaling EUR 111.7 million as of the balance sheet date (PY: EUR 110.4 million). This obligation is covered by plan assets with a fair value of EUR 72.7 million (PY: EUR 83.1 million). The fair value is determined on the basis of market prices for fund units. The cost of the plan assets is EUR 67.7 million (PY: EUR 74.5 million).

Pursuant to section 246 (2) HGB, interest expenses from compounding and interest income from discounting pension obligations, as well as income and expenses from offsetting plan assets must be netted. In the year under review, the discounting of pension obligations resulted in expenses of EUR 3.9 million (PY: EUR 4.2 million), while expenses from offsetting plan asserts amounted to EUR 3.1 million (PY: EUR 0.7 million). Overall, this resulted in an expense of EUR 7.0 million for the fiscal year (PY: EUR 3.5 million). There were no other effects from netting in the year under review.

3. Balance Sheet Disclosures

3.1. General

3.1.1. Maturity structure

Loans and advances, bonds, and liabilities are classified by maturity based on the residual terms. Pro-rata interest and similar amounts for the fiscal year are not included in the classification by residual term.

3.1.2. Volume of assets and liabilities denominated in foreign currencies

The total amount of assets and liabilities denominated in foreign currencies as of December 31, 2018 was EUR 16.5 billion (PY: EUR 14.1 billion) and EUR 9.8 billion (PY: EUR 8.7 billion), respectively. There were also derivative financial instruments in foreign currencies, which are presented in section 7.4.

3.3.5. Other liabilities

	Dec. 31, 2018 EUR million	Dec. 31, 2017 EUR million

Liabilities to affiliated companies included in this amount	399.2	4,982.3

Other liabilities consist primarily of a liability to ING Deutschland GmbH, Frankfurt am Main, under the existing profit and loss transfer agreement.

The reported foreign currency position from pending transactions comprises the surplus of currency delivery liabilities over currency delivery claims on translation of the foreign currency position at the average spot exchange rate as well as the swap rate recognized in the balance sheet for the forwards and swaps.

Trade payables mainly relate to open supplier invoices and accruals for rent-free periods under building leases.

The other tax liabilities primarily relate to capital gains tax on customer transactions and payroll tax liabilities.

The "Liabilities from commissions to sales partners" relate to open, as yet unpaid brokerage commissions for mortgages.

The change in the "Other items" was mainly due to the reassignment of a portfolio of securitized receivables. In 2008, the Bank had securitized receivables in connection with an RMBS transaction. Due to beneficial ownership not being transferred, it had recognized, under other liabilities, a liability to the special purpose entity Pure German Lion RMBS 2008 GmbH, Frankfurt am Main in the appropriate amount (PY: EUR 4.6 billion). The portfolio was transferred back in full in fiscal year 2018.

As in the previous year, none of the liabilities to affiliated companies are unsecured.

Total	268.3	263.9

The provisions for expected losses mainly relate to currency forwards (see 2.1.1.) and expected losses relating to the lending business in Wholesale Banking.

The recognition of non-current provisions resulted in interest expenses amounting to EUR 277 thousand (PY: EUR 349 thousand). No non-current provisions resulting in interest income were recognized in the fiscal year under review (PY: EUR 150 thousand).

The provisions also include the mandatory contribution to the Compensation Scheme of German Banks (Entschädigungseinrichtung deutscher Banken, "EdB") until December 31, 2018 for the contribution year October 1, 2018 to September 30, 2019. The provision is calculated on the basis of the parameters provided by the EdB. Since the contribution is calculated based on the metrics of all of banks with an obligation to make contributions,

the Bank has made institution-specific assumptions with respect to the risk parameters and the amount of covered deposits.

3.3.8. Subordinated liabilities

The total amount of subordinated liabilities as of December 31, 2018 was EUR 1.4 billion (PY: EUR 1.4 billion).

There are no subordinated liabilities in foreign currency.

Interest expenses of EUR 10.9 million (PY: EUR 0.5 million) were incurred on these liabilities. The lender that issued the subordinated loan, which is divided into three tranches, is ING Deutschland GmbH, Frankfurt am Main.

The subordinated liabilities exceeding 10% of the total reported are as follows:

	Nominal amount EUR million	Interest rate	Maturity date
Tranche 1	500	6M Euribor + 0.85%	Dec. 14, 2027
Tranche 2	500	6M Euribor + 1.10%	Dec. 14, 2029
Tranche 3	400	6M Euribor + 1.20%	Dec. 14, 2032
Total	1,400		

In the case of insolvency proceedings or liquidation of the Bank, the liabilities will only have to be repaid once all non-subordinated creditors have been satisfied.

Conversion to equity or another form of debt has not been agreed. A premature repayment obligation has been excluded.

ING-DiBa AG has the right to call each tranche 5 years before maturity.

3.3.9. Equity

Contingent liabilities to affiliated companies included in this amount	240.7	255.7

The contingent liabilities reported resulted primarily from the commercial banking business of the ING Bank branch in Frankfurt am Main and the ING-DiBa Austria branch in Vienna, Austria.

The Bank assumes currently that overall there will be no claims related to contingent liabilities. This assumption is based on the credit risk management parameters implemented in accordance with the Solvency Regulation (*Solvabilitätsverordnung*, "SolVV"). In three cases, however, credit risk monitoring showed sufficient findings for an expected claim so that provisions for this were established. In addition, provisions were also recognized for contingent credit risks from contingent liabilities.

3.4.2. Other commitments

Other obligations consist almost exclusively of irrevocable loan commitments of EUR 15.7 billion (PY: EUR 15.2 billion), which the Bank expects to be utilized over the course of the fiscal year, at least in the retail business. In addition, contingent credit risks were also accounted for in the form of provisions.

The accrued interest resulting from these transactions as of December 31, 2018 was allocated to the corresponding underlying transactions in the balance sheet item pursuant to section 11 (1) RechKredV. Accrued interest on derivative financial instruments is reported under loans and advances to banks and deposits from banks.

7. Other Disclosures

7.1. Other financial commitments and off-balance sheet transactions

7.1.1. From an obligation to make additional payments

ING-DiBa AG has accepted a release from liability vis-à-vis VISA Inc. for a credit card processing company as its vicarious agent in connection with compliance with the obligations from the "VISA International operating regulations" ("interchange").

The Bank has an obligation to make additional payments to the pension fund in the event the plan assets of the respective post-employment benefits scheme do not sufficiently cover the pension obligations.

There is a further obligation to make additional contributions to the clearing fund of Eurex Clearing AG, Frankfurt am Main. To the extent that this fund does not sufficiently cover obligations subsequent to the realization of the collateral provided by another clearing member for the event of default, the non-affected members may face claims not to exceed double the contribution requirement. As of December 31, 2018, the liability cap is EUR 31.8 million (PY: EUR 32.1 million). The Bank does not currently assume that there will be any claims.

7.1.2. From outsourcing obligations

ING-DiBa AG has outsourced some IT tasks. For 2019, this will result in a projected expense of EUR 41.5 million. This relates to expenses from contracts that are adjusted every year. An annual expense of up to EUR 49.2 million is currently projected for the following years.

7.1.3. From secondary liability

As part of the spin-off in 2011 of the former Frankfurt branch of ING Bank N.V. from ING Bank N.V., Amsterdam, to Conifer B.V. and the subsequent merger with ING-DiBa AG, ING-DiBa AG assumed Conifer B.V.'s secondary liability obligations existing by operation of the law for the protection of ING Bank N.V.'s creditors. This secondary liability obligation is anchored in article 2:334t of the Dutch Civil Code and applies to certain obligations on the part of ING Bank N.V. existing as of the effective date of the spin-off (August 31, 2011).

With regard to the scope of liability, a distinction has to be drawn between joint and several obligations. Joint obligations of ING Bank N.V. are subject to the joint liability of ING-DiBa AG and ING Bank N.V. The secondary liability in respect of the several obligations is limited to the value of the net assets of the Frankfurt branch of ING Bank N.V. as of the date of the spin-off to Conifer B.V.

The term of this liability is unlimited and expires only upon the extinguishment of the relevant obligation. The bank does currently not anticipate any claims under this liability.

In 2016, "ING Bank N.V. Vienna Branch" was contributed to ING-DiBa Austria. As a result, ING-DiBa Austria assumed the economic risk for obligations arising from the documentary business, which remains with ING Bank N.V., Amsterdam, Netherlands.

7.1.4. Contributions to deposit and bank protection schemes

	Dec. 31, 2018 EUR million	Dec. 31, 2017 EUR million
Contributions to deposit protection schemes	92.5	102.4
Additional agreement on contractual payment obligations	88.5	49.1
Contributions to the bank levy	16.5	13.3
Additional agreement on irrevocable payment obligations	7.5	4.7

As a member of the Compensation Scheme of German Banks (Entschädigungseinrichtung deutscher Banken GmbH, "EdB"), ING-DiBa AG is obliged to pay annual contributions. The EdB's calculation model is based, among other things, on the covered deposits and the risk parameters of all of the banks affiliated with the EdB. ING-DiBa AG does not have any information about the metrics of other banks or the estimated risk parameters that the EdB uses for ING-DiBa AG. The provisions recognized as of December 31, 2018 are therefore subject to estimation uncertainty.

ING-DiBa AG exercised the option to provide part of the annual contribution to the EdB and the German Deposit Protection Fund (*Einlagensicherungsfonds*, "ESF") as well as the European bank levy as a contractual and irrevocable payment obligation.

The contributions to bank protection include an amount of EUR 16.1 million for the European bank levy and of EUR 0.3 million for the stability levy imposed nationally pursuant to the Austrian Stability Levy Act (*Stabilitätsabgabegesetz*, "StabAbgG").

Securities in the amount of 30 percent of the contribution were lodged for the contributions to the EdB and ESF. Irrevocable payment obligations in the form of a cash contribution were agreed for 15 percent of the contribution to the bank levy. Neither led to an expense in the fiscal year.

Further payment obligations are expected to accumulate every year until 2024 and, together with any obligation to make additional contributions, will impact the Bank's financial position within the meaning of section 285 no. 3 HGB if they are utilized.

7.2. Shareholdings

paydirekt Beteiligungsgesellschaft privater Banken mbH, Berlin	20	6,115	3

Under the existing control and profit and loss transfer agreement, GGV's profit for the 2018 fiscal year will be transferred to ING-DiBa AG.

The liquidation of Rahmhof Grundbesitz GmbH i.L. was completed in fiscal year 2018 and the company has been cancelled.

ING-DiBa AG has a 20 percent interest in paydirekt Beteiligungsgesellschaft privater Banken mbH. The shares in the company were cancelled in the fiscal year under review, necessitating a write-down for impairment in the amount of the investment of EUR 1.5 million.

7.3. Auditors' fees

The auditors' fees charged for the fiscal year are not disclosed in ING-DiBa AG's annual financial statements because they are included in the consolidated subgroup financial statements of ING Holding Deutschland GmbH, Frankfurt am Main. The consolidated subgroup financial statements are published online at www.ing-diba.com.

Negative fair value (excluding accrued interest)	125.4	0.0

Currency forwards serve to hedge exchange rate fluctuations. These transactions are not part of hedges and are allocated in full to the special cover. The Bank concludes foreign currency forwards and swaps for this purpose.

Interest rate derivatives and cross-currency swaps are concluded to cover fluctuations in interest and exchange rates and are not part of a hedge. These are included in the banking book.

Standardized swaps (OTC derivatives) are measured using standard industry models, which incorporate inputs observed by providers of financial information, such as interest rates in particular. Individual OTC derivatives are measured on the basis of the multi-curve valuation.

According to ING-DiBa AG's calculations, as of December 31, 2018, the present value of the banking book significantly exceeds the corresponding carrying amount.

7.4.2. Hedges

In addition to general management of the interest rate risk, the Bank also concludes interest rate swaps in order to hedge the Bank's interest rate risks that result from securities in the liquidity reserve. Hedge accounting was applied in the past to some of these combinations of securities and interest rate swaps pursuant to section 254 HGB.

This meant that changes in fair value of the hedged items due to changes in interest rates were almost fully compensated by the offsetting changes in value of the hedging transactions belonging to the hedged item over the entire term of the hedged exposures. The terms of each of the hedging derivatives (e.g., volume, term, interest dates, coupons) corresponded almost completely to the terms of the hedged items. The effectiveness of the hedges was documented prospectively using regression analysis.

ING-DiBa AG had decided on the net hedge presentation method for the recognition of the effective portion of hedges. Although all hedges were effective in the past fiscal year, they were terminated because the hedged item or hedging transaction was sold or closed out. The cash flows from derecognizing the hedged item or hedging transaction that were attributable to the effectively hedged risk were recognized not affecting net income by recognizing other liabilities or by offsetting them against the carrying amount of the hedged item. Other liabilities from the termination of former hedges amount to EUR 6.1 million (PY: EUR 0).

The carrying amount of hedged assets as of the balance sheet date was EUR 0 million (PY: EUR 229.0 million). The nominal volume of hedged securities as of the reporting date was EUR 0 million (PY: EUR 225.0 million). The hedges include derivatives with a negative fair value of EUR 0 million (PY: EUR 16.5 million).

7.5. Average number of employees

	2018	2017
Germany	3,363	3,397
Austria	247	227
	3,610	3,624

7.6. Total remuneration of the Management Board and of the Supervisory Board and loans granted to these groups of people

The total remuneration of the Management Board for its services in the fiscal year was EUR 3.9 million (PY: EUR 4.5 million). The total remuneration of the former members of the Management Board and their bereaved in the fiscal year was EUR 1.3 million (PY: EUR 1.1 million).

The members of the Management Board were granted a total of 25,983 share-based subscription rights (PY: 46,439) on shares of the ING Groep. The fair value of the share-based subscription rights as of the grant date was EUR 331 thousand (PY: EUR 610 thousand). As in the previous year, no additional subscription rights were granted in 2018.

Provisions totaling EUR 2.1 million (PY: EUR 2.9 million) have been recognized for current pensions and entitlements to pensions for current members of the Management Board and provisions of EUR 21.2 million (PY: EUR 21.4 million) for former members of the Management Board and their surviving dependents.

The total remuneration of the Supervisory Board during the fiscal year was EUR 1.0 million (PY: EUR -0.7 million).

As of December 31, 2018, the total amount of loans granted to the members of the Management Board was EUR 0.1 million (PY: EUR 0.1 million) and EUR 0.1 million (PY: EUR 0.1 million) for members of the Supervisory Board.

Independent Auditor's Report

To ING-DiBa AG, Frankfurt am Main

Report on the Audit of the Annual Financial Statements and of the Management Report

Opinions

We have audited the annual financial statements of ING-DiBa AG, Frankfurt am Main, which comprise the balance sheet as at 31 December 2018, the income statement, the statement of cash flows and the statement of changes in equity for the financial year from 1 January to 31 December 2018, and notes to the financial statements, including the recognition and measurement policies presented therein. In addition, we have audited the management report of ING-DiBa AG for the financial year from 1 January to 31 December 2018. In accordance with German legal requirements, we have not audited the contents of the Group's corporate governance statement, which is included in the "Corporate governance statement" section of the management report.

In our opinion, on the basis of the knowledge obtained in the audit,

- the accompanying annual financial statements comply, in all material respects, with the requirements of German commercial law applicable to banks and give a true and fair view of the assets, liabilities and financial position of the Company as at 31 December 2018 and of its financial performance for the financial year from 1 January to 31 December 2018 in compliance with German Legally Required Accounting Principles, and
- the accompanying management report as a whole provides an appropriate view of the Company's position. In all material respects, this management report is consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. Our opinion on the management report does not cover the content of the corporate governance statement mentioned above.

Pursuant to Section 322 (3) sentence 1 HGB [Handelsgesetzbuch: German Commercial Code], we declare that our audit has not led to any reservations relating to the legal compliance of the annual financial statements and of the management report.

Basis for the Opinions

We conducted our audit of the annual financial statements and of the management report in accordance with Section 317 HGB and EU Audit Regulation No 537/2014 (referred to subsequently as "EU Audit Regulation") and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) [Institute of Public Auditors in Germany]. Our responsibilities under those requirements and principles are further described in the "Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report" section of our auditor's report. We are independent of the Company in accordance with the requirements of European law and German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. In addition, in accordance with Article 10 (2)(f) of the EU Audit Regulation, we declare that we have not provided non-audit services prohibited under Article 5 (1) of the EU Audit Regulation. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinions on the annual financial statements and on the management report.

Key Audit Matters in the Audit of the Annual Financial Statements

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the annual financial statements for the financial year from 1 January to 31 December 2018. These matters were addressed in the context of our audit of the annual financial statements as a whole, and in forming our opinion thereon, we do not provide a separate opinion on these matters.

■ [Measurement of the risk provision in the lending business with retail customers](#)

For an explanation of how provisions for the retail lending business are measured, please refer to the section "General" in the notes to the financial statements and the sections "Financial performance" under "2. Report on Economic Position" and "Loan Loss Provisions" under "3. Risk report" in the management report.

THE FINANCIAL STATEMENT RISK

In loans to retail customers, as at 31 December 2018 ING-DiBa AG recognised as risk provision EUR 203.3 million of general loan loss provisions for inherent credit risks, EUR 225.7 million of portfolio-based specific loan loss provisions and EUR 28.1 million of specific loan loss provisions for acute credit risks.

To determine general loan loss provisions for inherent credit risks, receivables and irrevocable loan commitments in the mortgage loans and consumer loans businesses without any identifiable acute credit losses are categorised by quantitative and qualitative risk characteristics into risk classes for which average default probabilities are calculated. In addition, loss given default is calculated based on historical experience.

To determine portfolio-based specific loan loss provisions for acute credit losses in the consumer loans and mortgage loans businesses, receivables for which debt servicing capacity can no longer be sustainably ensured are identified based on payment arrears. In addition, loss given default is calculated based on historical experience.

For terminated mortgage loans facing collateral liquidation, the Bank determines specific loan loss provisions that are calculated case-by-case based on the estimated future cash flows, taking into account expected proceeds from the sale of collateral.

The financial statement risk particularly concerns the potential absence of appropriate estimates or discretionary judgements in the determination of loan loss provisions for retail customer loans and thereby the inherent and acute credit risks not being taken into account in accordance with German commercial law. There is significant discretionary leeway in the loan loss provisions as regards the estimates of default probabilities and the loss given default and/or the future cash flows including proceeds from the sale of collateral.

OUR AUDIT APPROACH

Based on our risk assessment and evaluation of the risks of material misstatement, we used both control-based and substantive audit procedures for our audit opinion. We therefore performed the following audit procedures, among others:

First, we gained a thorough understanding of the performance of the loan portfolio, the associated credit risks and the internal controls with regard to identifying, controlling, monitoring and evaluating credit risks associated with retail customer lending. To assess the appropriateness of the internal control system with regard to identifying, controlling, monitoring and evaluating credit risks, we conducted inquiries and inspected the relevant documentation. In addition, we audited the implementation and the effectiveness of relevant controls, including application controls, that are intended to ensure derivation of assumptions and parameters to determine the loan loss provisions in accordance with German commercial law. With the involvement of our IT specialists, we audited the effectiveness of the general IT controls for the relevant IT systems.

With regard to the default probabilities incorporated into the calculation of the general loan loss provisions and the loss given default used in the determination of the portfolio-based specific loan loss provisions and the general loan loss provisions, we assessed the appropriateness of the validation carried out by the Bank and reviewed the implementation of the recalibrations derived from the validation.

Furthermore, we conducted audit procedures in relation to the quality of the data used for determining the portfolio-based specific loan loss provisions and general loan loss provisions.

In addition, we verified the mathematical accuracy of the calculation methods used for deriving the key parameters to determine the portfolio-based specific loan loss provisions and general loan loss provisions.

Using a selection of impairment amounts, we also audited the historical database used to determine loss given default.

As regards the specific loan loss provisions in the mortgage loans business, we used a random sample to verify that the loan loss provisions according to German commercial law was calculated based on appropriate estimates, particularly in relation to the value of collateral. We used expert valuation opinions in this process, among other things. In this regard, we evaluated the competence, professional skills and impartiality of the experts, gained an understanding of their work and assessed its suitability as audit evidence.

OUR OBSERVATIONS

Estimates made by management that underlie the calculation of the loan loss provisions for retail customer loans have been determined properly as a whole and in accordance with the applicable accounting policies under German commercial law. The probabilities of default and loss given default used have been properly derived from the historical data.

IT Access Management in the financial reporting process

Please refer to the section "Organisation of the ICS Ac" under "4. Internal control system for financial reporting" of the management report for further information on the assignment and management of authorisations in ING-DiBa AG.

THE FINANCIAL STATEMENT RISK

Due to the size and complexity of ING-DiBa AG, the financial reporting process is highly dependent on information technology and the completeness and accuracy of data. Inappropriate granting of access rights for IT systems therefore constitutes a risk for the accuracy of financial reporting. This applies in particular to systems in which the access rights are not granted according to the minimum principle (granting authorisation based on the requirements of the role and not granting any further authorisation) or the separation of functions principle (e.g. between IT and the specialist department or between development and application operations).

ING-DiBa AG's IT infrastructure is partially outsourced to companies in the group of ING Groep N.V., Amsterdam, as well as to other external companies.

As unauthorised system access, inappropriately extensive authorisations and insufficient separation of functions entail the risk of intentional or accidental manipulation which could materially affect the accuracy of financial reporting, the establishing of and adherence to appropriate precautions is of particular importance for our audit.

OUR AUDIT APPROACH

We gained an understanding of the IT-related control environment of ING-DiBa AG and the service organisations. To this end, we performed a risk assessment and identified IT applications, databases and operating systems that were significant for our audit.

For relevant IT application controls within the financial reporting process, we identified general IT supporting controls, in particular as regards access protection, and verified their structure and functionality. Our audit procedures concerned:

- Verifying that the initial access to IT systems for joiners or movers is subject to appropriate screening and is approved by an authorised person in line with the authorization design concept.
- Verifying that employee access rights are removed within an appropriate period following change of organisational unit or departure from the company.

- Verifying that a review is performed of the appropriateness of the system access granted for personalised and non-personalised privileged access rights and if they are subject to a particularly restrictive authorisation-granting procedure that is regularly monitored.

Moreover, we conducted further audit procedures concerning password protection, additional security settings regarding modifications for applications and databases, the separation of functions between specialist department and IT users and the separation of functions between employees responsible for program development and those responsible for system operations.

Based on the results of our audit of the internal control system, in cases of ineffective IT controls, we identified and reviewed further controls with a compensating effect, and performed audit procedures concerning risk-mitigating measures taken by ING-DiBa AG.

OUR OBSERVATIONS

Based on the results of the audit of significant controls and substantive audit procedures, we conclude that the Identity Access Management generally satisfies requirements for completeness and accuracy of data. Where we found deficiencies in the controls, we performed further audit procedures and in particular identified compensating controls that addressed the risk for these annual financial statements as at 31 December 2018.

Other Information

Management is responsible for the other information. The other information comprises the corporate governance statement pursuant to Section 289f (4) HGB (information on female representation).

Our opinions on the financial statements and the management report do not cover the other information; and consequently, we do not express an opinion or any other form of assurance conclusion thereon.

In connection with our audit, our responsibility is to read the other information and, in so doing, to consider whether the other information

- is materially inconsistent with the annual financial statements, with the management report or our knowledge obtained in the audit, or
- otherwise appears to be materially misstated.

Responsibilities of Management and the Supervisory Board for the Annual Financial Statements and the Management Report

Management is responsible for the preparation of annual financial statements that comply, in all material respects, with the requirements of German commercial law applicable to banks, and that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles. In addition, management is responsible for such internal control as they, in accordance with German Legally Required Accounting Principles, have determined necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the annual financial statements, management is responsible for assessing the Company's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, management is responsible for the preparation of the management report that as a whole provides an appropriate view of the Company's position and is, in all material respects, consistent with the annual financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development. In addition, management is responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the management report.

The Supervisory Board is responsible for overseeing the Company's financial reporting process for the preparation of the annual financial statements and of the management report.

Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the management report as a whole provides an appropriate view of the Company's position and, in all material respects, is consistent with the annual financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our opinions on the annual financial statements and on the management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Section 317 HGB and the EU Audit Regulation and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements and this management report.

We exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual financial statements and of the management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal control relevant to the audit of the annual financial statements and of arrangements and measures (systems) relevant to the audit of the management report in

order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of these systems.

- Evaluate the appropriateness of accounting policies used by management and the reasonableness of estimates made by management and related disclosures.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the annual financial statements and in the management report or, if such disclosures are inadequate, to modify our respective opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to be able to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements present the underlying transactions and events in a manner that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles.
- Evaluate the consistency of the management report with the annual financial statements, its conformity with [German] law, and the view of the Company's position it provides.
- Perform audit procedures on the prospective information presented by management in the management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by management as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with the relevant independence requirements, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, the related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the annual financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter.

ING-DiBa AG,
Frankfurt am Main
Notes to the Financial
Statements for the
2017 Fiscal Year

1. General Disclosures Regarding the Annual Financial Statements

The annual financial statements of ING-DiBa AG, domiciled in Frankfurt am Main and registered under HRB 7727 in the commercial register at the Local Court (*Amtsgericht*) of Frankfurt have been prepared pursuant to the provisions of the German Commercial Code (*Handelsgesetzbuch*, "HGB"), the Regulation on the Accounting of Banks and Financial Services Institutions (*Verordnung über die Rechnungslegung der Kreditinstitute und Finanzdienstleistungsinstitute*, "RechKredV"), the German Mortgage Bond Act (*Pfandbriefgesetz*, "PfandBG"), and the German Stock Corporation Act (*Aktiengesetz*, "AktG").

The balance sheet and income statement are classified pursuant to the RechKredV forms.

2. Accounting Policies

2.1. General

Assets and liabilities are recognized and measured pursuant to sections 252 *et seq.* in conjunction with sections 340 *et seq.* HGB.

Loans and advances are measured pursuant to section 253 (1) sentence 1 HGB in conjunction with section 340e (2) HGB. Any difference between the principal amount and the amount paid out is recognized as a deferred item and reversed as scheduled.

The risk provisions in the lending business comprise impairment allowances and provisions for acute and inherent credit risk. In addition, there are provisions for general banking risks pursuant to section 340f HGB.

All acute individual risks in the lending business are taken into account by recognizing specific impairment allowances and provisions. Specific impairment allowances calculated on a portfolio basis are recognized for direct credit risks on the basis of the credit risk models used by the Bank. General impairment allowances are recognized for inherent credit risks; these are also determined on the basis of the Bank's credit risk models. Provisions are recognized for inherent credit risks from off-balance sheet obligations.

The Bank securitized receivables in connection with an RMBS transaction in 2008. The mortgage loan receivables remain on ING-DiBa's balance sheet due to beneficial ownership not being transferred. The Bank has recognized an "other liability", which is treated as a secured liability, in the amount of the transferred mortgage loans.

In accordance with section 253 (1) sentence 2 HGB, liabilities are recognized at their settlement amount. Any difference between the nominal amount of liabilities and the amount paid out is recognized as a deferred item and reversed as scheduled.

2.1.1. Derivative financial instruments

Currency forwards, interest rate swaps, and cross-currency swaps are measured at the level of individual transactions. The rate for currency forwards comprises the spot exchange rate and the calculated swap rate. The swap rate is calculated as the difference between the spot exchange rate and the forward rate on the reporting date. It is unwound on a straight-line basis as an adjustment to net interest income over the remaining term of the currency forward. Provisions for expected losses are recognized for currency forwards if the current fair value is lower than the carrying amount.

The derivative financial instruments in the banking book used for hedging the general interest rate risk were not measured separately because they are included in the measurement of the banking book at net realizable value. By contrast, exchange differences from interest rate swaps in foreign currency are recognized.

Please see section 7.4.2 for a presentation of the hedges.

2.1.2. Measurement at net realizable value

Interest-bearing loans and advances, securities, and derivatives in the banking book are not usually remeasured due to changes in interest rates. Only securities assigned to the liquidity reserve and available-for-sale loans and advances are recognized at the strict lower of cost or market principle under the imparity principle. Nonetheless, for the purposes of accounting for the general interest rate risk management in the banking book, all receivables and refinancing funds in the banking book are measured in their entirety, taking into account changes in interest rates. The banking book has to be measured at net realizable value. A provision for expected losses is recognized if a loss is expected from the banking book due to a negative overall present value.

The Bank uses the net present value method to determine any future excess obligation. The calculation as of December 31, 2017 revealed that the net present value of the banking book exceeds the carrying amount significantly. Therefore, as of December 31, 2017, there is no need to recognize a provision for expected losses from banking book transactions.

2.1.3. Deferred taxes

If there are differences between the carrying amounts of assets, liabilities, deferred income, and prepaid expenses recognized in the financial statements and their tax bases, and these differences are expected to reverse in subsequent fiscal years, any resulting net tax burden is recognized as a deferred tax liability in the balance sheet pursuant to section 274 (1) HGB. Any resulting net tax credit may be recognized as a deferred tax asset in the balance sheet.

ING-DiBa did not recognize any deferred taxes in the fiscal year under review.

2.1.4. Tax allocation

Since 2017, there has been an income tax allocation agreement for the tax group with ING Holding Deutschland GmbH, Frankfurt am Main, which is the tax group parent. The tax allocations payable to the tax group parent are used to cover the liquidity required to make various tax payments. The tax allocations are determined in a way that ensures that the tax burden is allocated fairly within the income tax group to those responsible for the tax and in a way that makes business sense.

2.1.5. Restrictions on distributions and transfers

In order to protect creditors, restrictions on distribution and transfer must be observed pursuant to section 268 (8) HGB and section 301 AktG. Section 253 (6) HGB includes a restriction on distribution, which pursuant to section 301 AktG does not lead to a restriction on transfer.

Pursuant to section 268 (8) HGB in conjunction with section 301 AktG, EUR 28.3 million (PY: EUR 17.5 million) was subject to restrictions on distribution and transfer as of the balance sheet date. Of this amount, EUR 19.8 million related to internally generated intangible fixed assets recognized pursuant to section 248 (2) HGB and EUR 8.5 million to the fair values of plan assets in excess of historical cost pursuant to section 246 (2) HGB.

Pursuant to section 253 (2) HGB, provisions for pension benefit obligations have been recognized based on the average market interest rate for the past ten fiscal years since the December 31, 2016 reporting date. Pursuant to section 253 (6) HGB, the difference must be calculated between this approach and the previous approach, which was based on the average market interest rate for the past seven fiscal years. The resulting positive difference is restricted from distribution. This led to an amount restricted from distribution of EUR 19.1 million as of December 31, 2017 (PY: EUR 15.9 million).

The restricted amount reduces the maximum distributable or transferable amount. The distributable capital reserves pursuant to section 272 (2) no. 4 HGB and the retained earnings amounted to EUR 4,170 million (PY: EUR 4,553 million). Consequently, a maximum of EUR 4,123 million (PY: EUR 4,520 million) was distributable and a maximum of EUR 4,142 million (PY: EUR 4,536 million) was transferable under commercial law as of December 31, 2017.

This means that the restrictions on distribution or transfer described above do not have any effect on the profit after tax allocation (EUR 356.6 million; PY: EUR 740.5 million) to be transferred.

	12/31/2017 € m	12/31/2016 € m
Restriction on distribution or transfer pursuant to section 268 (8) HGB in conjunction with section 301 AktG	28.3	17.5
Internally generated intangible assets	19.8	8.8
Fair values of plan assets in excess of historical cost pursuant to section 246 (2) HGB	8.5	8.7
Restriction on distribution pursuant to section 253 (6) HGB	19.1	15.9
Difference (gain) on changes in market interest rates	19.1	15.9
Total restrictions on distribution pursuant to the HGB	47.4	33.4

2.1.6. Currency translation

Currency translation for assets, liabilities, and off-balance sheet transactions is performed in accordance with section 340h HGB in conjunction with section 256a HGB. Accounts receivable and liabilities denominated in foreign currency, as well as spot dealings not yet settled are translated at the mean spot rate on the balance sheet date.

The rate for currency forwards comprises the spot exchange rate and the calculated swap rate. Changes in the spot exchange rate between the transaction date and the next balance sheet date are reported in other operating expenses or other operating income in the same way as exchange differences from spot dealings. The swap rate included in this amount is presented separately. This is unwound on a straight-line basis as an adjustment to interest cost over the remaining term of the currency forward.

The Bank manages currency risk as part of the special cover for the overall exposure per currency, which includes all on- and off-balance sheet foreign currency transactions.

2.2. Bonds and other fixed-income securities

The securities portfolio is recognized at cost plus accrued interest using the weighted average cost method. To the extent securities are allocated to the liquidity reserve and the securities are not hedged, they are recognized pursuant to the strict lower of cost or market principle (section 253 (4) HGB).

In addition, interest rate swaps (asset swaps) were concluded to hedge securities in the liquidity reserve. Within individual hedges, remeasurement gains and losses on the hedged item and the hedging instrument are offset based on the hedged risk. Any net loss on such remeasurements results in recognition of a provision for expected losses from executory contracts. Any net remeasurement gain is not recognized in profit or loss. The remeasurement gains/losses that arise based on the unhedged risks are recognized for the hedged item and for the hedging instrument in compliance with itemized measurement under the imparity principle pursuant to general accounting standards. Differences between nominal amount and cost upon designation and which are not part of the hedged interest rate risk are written down on a straight-line basis over the remaining terms.

Long-term securities are measured at amortized cost and held with a long-term investment intent (section 253 (3) HGB). To the extent of being interest-related, the difference between cost and repayment amount is allocated proportionally over the residual maturity and presented as interest income from fixed-income securities and debt register claims.

Impairment losses are reversed on long-term securities that have previously been reclassified from the liquidity reserve into the investment portfolio if the original reason for the impairment no longer exists and the quoted or market price as of the balance sheet date has increased again compared to the carrying amount. The original cost is the upper limit for such reversals.

2.3. Equity investments and investments in affiliated companies

These items are measured at cost or lower net realizable value if impairment is expected to be permanent.

2.4. Intangible fixed assets

Intangible fixed assets are recognized at cost less amortization. No write-downs were necessary in the fiscal year.

2.4.1. Internally generated intangible fixed assets

Expenses incurred when developing internally generated software are capitalized provided that these expenses result in an asset being recognized. There are no borrowing costs incurred on these expenses.

2.4.2. Acquired goodwill

The goodwill acquired through the acquisition of Entrium Direct Bankers AG, Nuremberg, in 2003 is being amortized over 15 years. The Bank decided on this procedure because it assumes that the goodwill will be available to the company as a long-term asset.

2.5. Tangible fixed assets

Tangible fixed assets are recognized at cost less depreciation based on the useful life. Low-value assets purchased during the fiscal year, the costs of which are between EUR 150 and EUR 1,000 (net), are allocated to a pooled item and depreciated over five years.

2.6. Prepaid expenses

Expenditure prior to the balance sheet date is reported as a prepaid expense, provided this represents an expense for a specific period after that date. Prepaid expense items are recognized for premiums and discounts from bearer *Pfandbriefe* issued by ING-DiBa. These are reversed as scheduled in accordance with the utilization of capital.

In addition, brokerage commissions for mortgage loans are recognized as prepaid expenses and amortized over the respective interest rate period of the individual mortgage loans, however not more than ten years. Prepaid expenses are recognized for fair value settlement in Wholesale Banking (difference between nominal amount and cost due to changes in interest rates). This is amortized over the respective term of the loan agreements.

2.7. Deferred income

Receipts prior to the balance sheet date that represent income for a specific period after that date are reported as deferred income. Deferred income items are recognized for discounts that will be reversed as scheduled in accordance with the utilization of capital.

Deferred income items are recognized for upfront payments from concluded hedging transactions. These are reversed ratably over the term of the hedging transaction.

Deferred income is also recognized for interest-induced loan processing fees and fair value settlement in Wholesale Banking (difference between nominal amount and cost due to changes in interest rates). This is amortized over the respective term of the loan agreements.

2.8. Provisions

2.8.1. Tax and other provisions

Pursuant to section 253 (1) HGB, tax and other provisions must be measured such that they take into account all discernible risks and obligations based on sound business judgment considering future cost and price increases (settlement amount).

Provisions with a term of more than one year are discounted pursuant to section 253 (2) HGB over their residual term using the average market interest rate for the past seven fiscal years calculated by Deutsche Bundesbank.

2.8.2. Provisions for pensions and similar obligations

Provisions for pensions and similar obligations are calculated pursuant to recognized actuarial principles using the projected unit credit method. The Klaus Heubeck 2005 G mortality tables were used as biometric actuarial bases. The provisions are collectively discounted pursuant to section 253 (2) HGB using the average rate of interest of the past ten years (3.68 percent; PY: 4.01 percent) applicable to an assumed remaining term of 15 years. This discount rate is calculated and published each month by the Deutsche Bundesbank pursuant to the Regulation on the Discounting of Provisions (*Rückstellungsabzinsungsverordnung*, "RückAbzinsV"). Salary and pension adjustments of 2.75 percent and 1.75 percent, respectively, are included (PY: 2.75 percent and 1.75 percent, respectively). In addition to the obligations from current pensions and the prospective entitlements existing at the balance sheet date, obligations for transitional benefits for early retirement (*Altersübergangsgeld*) are also recognized.

The difference to the amount calculated under the previous rule for pension provisions (seven years) is EUR 19.1 million (PY: EUR 15.9 million). A distribution restriction applies to this amount if it does not at least match the distributable reserves plus retained profits brought forward less any accumulated losses brought forward.

Pursuant to section 246 (2) HGB, assets that are exempt from attachment by all other creditors and that serve exclusively to settle liabilities from pension benefit obligations have to be offset against such liabilities. If the fair value of the assets exceeds the amount of liabilities, the excess amount must be recognized under a separate asset item.

Wholesale Banking's pension schemes consist of a contractual trust arrangement (CTA) and pension fund commitments.

These pension fund commitments are indirect pension obligations within the meaning of article 28 of the Introductory Act to the German Commercial Code (*Einführungsgesetz zum Handelsgesetzbuch*, "EGHGB"), for which there is basically a recognition option. ING-DiBa has decided to use the existing carrying amounts.

Any excess of pension obligations over the related plan assets is presented in the pension provisions. Any surplus of the plan assets over pension obligations are included in the asset item "Excess of plan assets over pension benefit liability."

This results in a pension obligation totaling EUR 110.4 million as of the balance sheet date (PY: EUR 109.3 million). This obligation is covered by plan assets with a fair value of EUR 83.1 million (PY: EUR 89.4 million). The fair value is determined on the basis of market prices for fund units. The cost of the plan assets is EUR 74.5 million (PY: EUR 80.7 million).

Pursuant to section 246 (2) HGB, interest expenses from compounding and interest income from discounting pension obligations, as well as income and expenses from offsetting plan assets must be netted. In the year under review, the discounting of pension obligations resulted in expenses of EUR 4.2 million (PY: EUR 4.5 million), while expenses from offsetting plan assets amounted to EUR 0.7 million (PY: EUR 16.9 thousand). Overall, this resulted in an expense of EUR 4.9 million for the fiscal year (PY: EUR 4.4 million). There were no other effects from netting in the year under review.

3. Balance Sheet Disclosures

3.1. General

3.1.1. Maturity structure

Loans and advances, bonds, and liabilities are classified by maturity based on the residual terms. Pro-rata interest and similar amounts for the fiscal year are not included in the classification by residual terms.

3.1.2. Volume of assets and liabilities denominated in foreign currencies

The total amount of assets and liabilities denominated in foreign currencies as of December 31, 2017 was EUR 14.1 billion (PY: EUR 12.6 billion) and EUR 8.7 billion (PY: EUR 8.2 billion), respectively. There were also derivative financial instruments in foreign currencies, which are presented in section 7.4.

The foreign currency position from executory contracts presented comprises the surplus of currency delivery claims over currency delivery liabilities on translation of the foreign currency position at the middle spot rate as well as the swap points recognized in the balance sheet for the currency forwards.

ING-DiBa has outsourced ATM servicing to a third-party service provider. The cash made available to fill the ATMs is reported as a pending item under other assets.

Receivables from taxes mainly comprise corporate income tax reclaims for the 2015 and 2016 calendar years. These claims arose from the assertion of loss carryforwards as part of the contribution of ING Bank N.V., Vienna Branch, Vienna, Austria, as well as reclaims of corporate income tax and other penalties and charges for the years 2010 – 2015 following the completion of the tax audit for the branch in Austria for the period 2010 – 2014.

The receivable from the control and profit and loss transfer agreement resulted from the profit of GGV mbH, Frankfurt am Main, for the 2017 fiscal year, which will be transferred to ING-DiBa following the shareholders' meeting.

The provisions also include the mandatory contribution to the Compensation Scheme of German Banks (Entschädigungseinrichtung deutscher Banken, "EdB") until December 31, 2017 for the contribution year October 1, 2017 to September 30, 2018. The provision is calculated on the basis of the parameters provided by the EdB. Since the contribution is calculated based on the metrics of all of banks with an obligation to make contributions, the Bank has made institution-specific assumptions with respect to the risk parameters and the amount of covered deposits.

3.3.8. Subordinated liabilities

The total amount of subordinated liabilities as of December 31, 2017 was EUR 1.4 billion (PY: EUR 0).

The contingent liabilities reported resulted primarily from the Wholesale Banking business of the ING Bank branch in Frankfurt am Main and the ING-DiBa Austria branch in Vienna, Austria.

The Bank assumes currently that overall there will be no claims related to contingent liabilities. This assumption is based on the credit risk management parameters implemented in accordance

with the Solvency Regulation (*Solvabilitätsverordnung*, "SolVV"). In three cases, however, credit risk monitoring showed sufficient findings for an expected claim so that provisions for this were established. In addition, provisions were also recognized for contingent credit risks from contingent liabilities.

3.4.2. Other commitments

Other obligations consist almost exclusively of irrevocable loan commitments of EUR 15.2 billion (PY: EUR 14.8¹ billion), which the Bank expects to be utilized over the course of the fiscal year, at least in the retail business. In addition, inherent credit risks were also accounted for in the form of provisions.

7. Other Disclosures

7.1. Other financial commitments and off-balance sheet transactions

7.1.1. From an obligation to make additional payments

ING-DiBa has accepted a release from liability vis-à-vis VISA Inc. for a credit card processing company as its vicarious agent in connection with compliance with the obligations from the "VISA International operating regulations" ("interchange").

The Bank has an obligation to make additional payments to the pension fund in the event the plan assets of the respective post-employment benefits scheme do not sufficiently cover the pension obligations.

There is a further obligation to make additional contributions to the clearing fund of Eurex Clearing AG, Frankfurt am Main. To the extent that this fund does not sufficiently cover obligations subsequent to the realization of the collateral provided by another clearing member for the event of default, the non-affected members may face claims not to exceed double the contribution requirement. As of December 31, 2017, the liability cap is EUR 32.1 million (PY: EUR 49.8 million). The Bank does not assume any utilization of the fund at present.

7.1.2. From outsourcing obligations

ING-DiBa has outsourced some IT tasks. For 2018 this will result in a projected expense of EUR 43.9 million. This relates to expenses from contracts that are adjusted every year. An annual expense of up to EUR 49.5 million is currently projected for the following years.

7.1.3. From secondary liability

As part of the spin-off in 2011 of the former Frankfurt branch of ING Bank N.V. from ING Bank N.V., Amsterdam, to Conifer B.V. and the subsequent merger with ING-DiBa, ING-DiBa assumed Conifer B.V.'s secondary liability obligations existing by operation of the law for the protection of ING Bank N.V.'s creditors. This secondary liability obligation is anchored in article 2:334t of the Dutch Civil Code and applies to certain obligations on the part of ING Bank N.V. existing as of the effective date of the spin-off (August 31, 2011).

With regard to the scope of liability, a distinction has to be drawn between joint and several obligations. Joint obligations of ING Bank N.V. are subject to the joint liability of ING-DiBa and ING Bank N.V. The secondary liability in respect of the several obligations is limited to the value of the net assets of the Frankfurt branch of ING Bank N.V. as of the date of the spin-off to Conifer B.V.

The term of this liability is unlimited and expires only upon the extinguishment of the relevant obligation. The Bank does not currently anticipate any claims under this liability.

In 2016, "ING Bank N.V. Vienna Branch" was contributed to ING-DiBa Austria. As a result, ING-DiBa Austria assumed the economic risk for obligations arising from the documentary business, which remains with ING Bank N.V., Amsterdam, Netherlands.

7.1.4. Contributions to deposit and bank protection schemes

	12/31/2017 € m	12/31/2016 € m
Contributions to deposit protection schemes	102.4	79.6
Additional agreement on contractual payment obligations	49.1	22.8
Contributions to the bank levy	13.3	13.5
Additional agreement on irrevocable payment obligations	4.7	2.4

As a member of the Compensation Scheme of German Banks (Entschädigungseinrichtung deutscher Banken GmbH, "EdB"), ING-DiBa is obliged to pay annual contributions. The EdB's calculation model is based, among other things, on the covered deposits and the risk parameters of all of the banks affiliated with the EdB. ING-DiBa does not have any information about the metrics of other banks or the estimated risk parameters that the EdB uses for ING-DiBa. The provisions recognized as of December 31, 2017 are therefore subject to estimation uncertainty.

ING-DiBa exercised the option to provide part of both the annual contribution to the EdB and the European bank levy as a contractual and/or irrevocable payment obligation.

The contributions to bank protection include an amount of EUR 12.9 million for the European bank levy and of EUR 0.4 million for the stability levy imposed nationally pursuant to the Austrian Stability Levy Act (*Stabilitätsabgabegesetz*, "StabAbgG").

Securities in the amount of 30 percent of the contribution were lodged for the contributions to the EdB. Irrevocable payment obligations in the form of a cash contribution were agreed for 15 percent of the contribution to the bank levy. Neither led to an expense in the fiscal year.

Further payment obligations are expected to accumulate every year until 2024 and, together with any obligation to make additional contributions, will impact the Bank's financial position within the meaning of section 285 no. 3 HGB if they are utilized.

Currency forwards serve to hedge exchange rate fluctuations. These transactions are not part of hedges and are allocated in full to the special cover. The Bank concludes foreign currency forwards and swaps for this purpose.

Interest rate swaps and cross-currency swaps are concluded to cover fluctuations in interest and exchange rates and are not part of a hedge. Interest rate swaps in foreign currency were a new addition in the year under review. These are included in the banking book. According to ING-DiBa's calculations, as of December 31, 2017, the present value of the banking book significantly exceeds the corresponding carrying amount. The fair values of these derivatives are determined using the respective cash flows with the help of the front office valuation tools and the KONDOR+ and Murex risk management systems. The valuation model in the two systems is based on a discounted cash flow approach. The required parameters (interest rate curves, credit spreads) are provided by external data providers.

7.4.2. Hedges

In addition to general management of the interest rate risk, the Bank also concludes interest rate swaps in order to hedge the Bank's interest rate risks that result from securities in the liquidity reserve. Hedge accounting is applied to some of these micro hedges pursuant to section 254 HGB.

Under hedge accounting, changes in fair value of the hedged items due to changes in interest rates are almost fully compensated by the offsetting changes in value of the hedging transactions belonging to the hedged item over the entire term of the hedged exposures. The terms of each of the hedging derivatives (e.g., volume, term, interest dates, coupons) correspond almost completely to the terms of the hedged items. The effectiveness of the hedges is documented prospectively using regression analysis. The effectiveness is measured based on a time series of

30 support points from the beginning of the support period up to and including the beginning of the hedge period, extended by an artificial support point up to the end of the period the change in interest rates is assumed based on the offset scenario used (interest rate shock, 100 basis points, on the day following the beginning of the hedge period). All hedges were effective in the fiscal year just ended. ING-DiBa has decided on the net hedge presentation method for the recognition of the effective portion of hedges.

The carrying amount of hedged assets as of the balance sheet date was EUR 229.0 million (PY: EUR 229.9 million). The nominal volume of hedged securities as of the closing date was EUR 225.0 million (PY: EUR 225.0 million). The hedges include derivatives with a negative fair value of EUR 16.5 million (PY: EUR 22.5 million).

7.5. Average number of employees

	2017	2016
Germany	3,397	3,285
Austria	227	200
Total	3,624	3,485

7.6. Total remuneration of the Management Board and of the Supervisory Board and loans granted to these groups of people

The total remuneration of the Management Board for its services in the fiscal year was EUR 4.5 million (PY: EUR 5.0 million). The total remuneration of the former members of the Management Board and their bereaved in the fiscal year was EUR 1.1 million (PY: EUR 1.6 million).

The members of the Management Board were granted a total of 46,439 share-based subscription rights (PY: 72,678) on shares of the ING Groep. The fair value of the share-based subscription rights as of the grant date was EUR 610 thousand (PY: EUR 749 thousand). As in the previous year, no additional subscription rights were granted in 2017.

Provisions totaling EUR 2.9 million (PY: EUR 2.5 million) have been recognized for current pensions and entitlements to pensions for current members of the Management Board and provisions of EUR 21.4 million (PY: EUR 21.0 million) for former members of the Management Board and their bereaved.

As of December 31, 2017, the total amount of loans granted to the members of the Management Board was EUR 0.1 million (PY: EUR 0.2 million) and EUR 0.1 million (PY: EUR 0.1 million) for members of the Supervisory Board. Independent Auditor's Report

To ING-DiBa AG, Frankfurt am Main

Report on the Audit of the Annual Financial Statements and of the Management Report

Opinions

We have audited the annual financial statements of ING-DiBa AG, Frankfurt am Main, which comprise the balance sheet as at 31 December 2017, the statement of profit and loss for the financial year from 1 January 2017 to 31 December 2017, and notes to the financial statements, including the recognition and measurement policies presented therein. In addition, we have audited the management report of ING-DiBa AG for the financial year from 1 January to 31 December 2017. In accordance with German legal requirements, we have not audited the content of the corporate governance statement, which is included in the "Report on economic position" section of the management report.

In our opinion, on the basis of the knowledge obtained in the audit,

- the accompanying annual financial statements comply, in all material respects, with the requirements of German commercial law applicable to credit institutions and give a true and fair view of the assets, liabilities and financial position of the Company as at 31 December 2017, and of its financial performance for the financial year from 1 January to 31 December 2017 in compliance with German Legally Required Accounting Principles, and
 - the accompanying management report as a whole provides an appropriate view of the Company's position. In all material respects, this management report is consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. Our opinion on the management report does not cover the content of the corporate governance statement mentioned above.
-

Pursuant to Section 322 (3) sentence 1 HGB [Handelsgesetzbuch: German Commercial Code], we declare that our audit has not led to any reservations relating to the legal compliance of the annual financial statements and of the management report.

Basis for the Opinions

We conducted our audit of the annual financial statements and of the management report in accordance with Section 317 HGB and the EU Audit Regulation No. 537/2014 (referred to subsequently as "EU Audit Regulation") and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Our responsibilities under those requirements and principles are further described in the "Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report" section of our auditor's report. We are independent of the Company in accordance with the requirements of European law and German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. In addition, in accordance with Article 10 (2) point (f) of the EU Audit Regulation, we declare that we have not provided non-audit services prohibited under Article 5 (1) of the EU Audit Regulation. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinions on the annual financial statements and on the management report.

Key Audit Matters in the Audit of the Annual Financial Statements

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the annual financial statements for the financial year from 1 January to 31 December 2017. These matters were addressed in the context of our audit of the annual financial statements as a whole, and in forming our opinion thereon, we do not provide a separate opinion on these matters.

■ Measurement of loan loss provisions in the lending business with retail customers

For an explanation of how the loan loss provisions for the retail lending business are measured, please refer to section 2.1 "General" in the notes to the financial statements and the sections "Results of operations" under "2. Report on Economic Position" and "Loan Loss Provisions" under "3. Risk report" in the management report.

THE FINANCIAL STATEMENT RISK

As at 31 December 2017 ING-DiBa AG recognised EUR 194.0 million of general loan loss provisions for inherent credit risks as well as EUR 275.8 million of portfolio-based specific loan loss provisions and EUR 35.7 million of specific loan loss provisions for acute credit risks.

To determine general loan loss provisions for inherent credit risks, receivables and irrevocable loan commitments in the mortgage loans and consumer loans businesses without any identifiable acute credit losses are categorised by quantitative and qualitative risk characteristics into risk classes for which average probabilities of default are calculated. In addition, loss given default is calculated based on historical experience.

To determine portfolio based specific loan loss provisions for acute credit losses in the consumer loans and mortgage loans businesses, receivables for which the debt servicing capacity can no longer be sustainably ensured are identified based on payment arrears. In addition, loss given default is calculated based on historical experience.

For terminated mortgage loans prior collateral liquidation, the Bank determines specific loan loss provisions that are calculated case-by-case based on the estimated future cash flows, taking into account expected proceeds from the sale of collateral.

The financial statement risk particularly concerns the potential absence of appropriate estimates or discretionary judgements in the determination of loan loss provisions for retail customer loans and thereby the inherent and acute credit risks not being taken into account in accordance with the German Legally Required Accounting Principles. There is significant discretionary leeway in the loan loss provisions regarding the estimates of probabilities of default and the loss given default and/or the future cash flows including proceeds from the sale of collateral.

OUR AUDIT APPROACH

Based on our risk assessment and evaluation of the risks of material misstatement, we used both control-based and substantive audit procedures for our audit opinion. We therefore performed the following audit procedures, among others:

First, we gained a thorough understanding of the performance of the loan portfolio, the associated credit risks and the internal controls with regard to identifying, controlling, monitoring and evaluating credit risks associated with retail customer lending. To assess the appropriateness of the internal control system with regard to identifying, controlling, monitoring and evaluating credit risks, we conducted inquiries and inspected the relevant documentation. In addition, we audited the implementation and the effectiveness of relevant controls, including application controls, that are intended to ensure derivation of assumptions and parameters to determine the loan loss provisions in accordance with the German Legally Required Accounting Principles. With the involvement of our IT specialists, we audited the effectiveness of the general IT controls for the relevant IT systems.

With regard to the probabilities of default incorporated into the calculation of the general loan loss provisions and the loss given default used in the determination of the portfolio based specific loan loss provisions and the general loan loss provisions, we assessed the appropriateness of the validation carried out by the Bank and reviewed the implementation of the recalibrations derived from the validation. In order to express an opinion on the appropriateness of the historical database for the loan portfolio as at 31 December 2017, we assessed the analyses conducted by the Bank that examine current qualitative factors and environmental effects which could lead to credit losses deviating from the historical database.

Furthermore, we conducted audit procedures in relation to the quality of the data used for determining the specific loan loss provisions and portfolio-based loan loss provisions.

In addition, we verified the mathematical accuracy of the calculation methods used for deriving parameters to determine the portfolio-based specific loan loss provisions and general loan loss provisions.

Using sample sales proceeds in the mortgage loan business, we also audited the historical database used to determine loss given default.

Regarding the specific loan loss provisions in the mortgage loans business, we used a random sample to verify that the loan loss provisions according to the German Legally Required Accounting Principles was calculated based on appropriate estimates, particularly in relation to the value of collateral. We used expert valuation opinions in this process, among other things. In this regard, we evaluated the competence, professional skills and impartiality of the experts, gained an understanding of their work and assessed its suitability as audit evidence.

OUR OBSERVATIONS

Estimates made by management that underlie the calculation of the loan loss provisions for retail customer loans have been determined properly as a whole and in accordance with the applicable accounting policies of the German Legally Required Accounting Principles. The probabilities of default and loss given default used have been properly derived from historical data.

Identity Access Management in the Financial Reporting Process

Please refer to the section "Organisation of the ICS Ac" under "4. Internal control system for financial reporting" of the management report for further information on Identity Access Management at ING-DiBa.

THE FINANCIAL STATEMENT RISK

Due to the size and complexity of ING-DiBa AG, the financial reporting process is highly dependent on information technology and the completeness and accuracy of data. Inappropriate granting of access rights for IT systems therefore constitutes a risk for the accuracy of financial reporting. This applies in particular to systems in which the access rights are not granted according to the minimum principle (granting authorisation based on the requirements of the role and not granting any further authorisation) or the segregation of duties principle (e.g. between IT and the specialist department or between development and application operations).

The Bank's IT infrastructure is partially outsourced to companies in the group of ING Groep N.V., Amsterdam, as well as to external companies.

As unauthorised system access, inappropriately extensive authorisation and insufficient separation of functions entails the risk of intentional or accidental manipulation, which could materially affect the accuracy of financial reporting, the establishing of and adherence to appropriate precautions is of particular importance for our audit.

OUR AUDIT APPROACH

We gained an understanding of the IT-related control environment of ING-DiBa AG and the service organisations. To this end, we performed a risk assessment and identified IT applications, databases and operating systems that were significant for our audit.

For relevant IT application controls within the financial reporting process, we identified general IT supporting controls, in particular regarding access protection, and verified their structure and functionality. Our audit procedures concerned:

- Verifying that the initial access to IT systems for joiners or movers is subject to appropriate screening and is approved by an authorised person in line with the authorization design concept.
- Verifying that employee access rights are removed within an appropriate period following change of organisational unit or departure from the company.
- Verifying that a review is performed of the appropriateness of the system access granted for personalised and non-personalised privileged access rights and if they are subject to a particularly restrictive authorisation-granting procedure that is regularly monitored.

Moreover, we conducted further audit procedures concerning password protection, additional security settings regarding changes for applications and databases, the separation of functions

between specialist department and IT users and the separation of functions between employees responsible for program development and those responsible for system operations. We also checked if program developers have release rights in the change process and if they can carry out changes directly in the productive versions of applications, operating systems and databases, as these roles must be separated functionally.

Based on the results of our audit of the internal control system, we performed the following further audit procedures:

- In cases of inappropriate granting of authorisation, we familiarised ourselves with the individual authorisations granted specifically and then reviewed the usage protocol of the user concerned to check for unauthorised activities.
- Furthermore, in cases of ineffective IT controls, we identified and reviewed further controls with a compensating effect.
- We performed segregation of duties analyses on critical portfolio management systems in order to determine adherence to the functional separation between incompatible activities.

OUR OBSERVATIONS

Based on the results of the audit of significant controls and substantive audit procedures, we conclude that the Identity Access Management generally satisfies requirements for completeness and accuracy of data. Where we found deficiencies in the controls, we performed further audit procedures and in particular identified compensating controls that addressed the risk for these annual financial statements as at 31 December 2017.

Other Information

Management is responsible for the other information. The other information comprises:

- the corporate governance statement, and
- the remaining parts of the annual report made available to us after the date of the auditor's report, with the exception of the audited annual financial statements and management report and our auditor's report.

Our opinions on the annual financial statements and on the management report do not cover the other information, and consequently we do not express an opinion or any other form of assurance conclusion thereon.

In connection with our audit, our responsibility is to read the other information and, in so doing, to consider whether the other information

- is materially inconsistent with the annual financial statements, with the management report or our knowledge obtained in the audit, or
- otherwise appears to be materially misstated.

Responsibilities of Management and the Supervisory Board for the Annual Financial Statements and the Management Report

Management is responsible for the preparation of the annual financial statements that comply, in all material respects, with the requirements of German commercial law applicable to credit institutions, and that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German

Legally Required Accounting Principles. In addition, management is responsible for such internal control as they, in accordance with German Legally Required Accounting Principles, have determined necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the annual financial statements, management is responsible for assessing the Company's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, management is responsible for the preparation of the management report that as a whole provides an appropriate view of the Company's position and is, in all material respects, consistent with the annual financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development. In addition, management is responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the management report.

The supervisory board is responsible for overseeing the Company's financial reporting process for the preparation of the annual financial statements and of the management report.

Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the management report as a whole provides an appropriate view of the Company's position and, in all material respects, is consistent with the annual financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our opinions on the annual financial statements and on the management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Section 317 HGB and the EU Audit Regulation and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements and this management report.

We exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual financial statements and of the management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit of the annual financial statements and of arrangements and measures (systems) relevant to the audit of the
-

management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of these systems.

- Evaluate the appropriateness of accounting policies used by management and the reasonableness of estimates made by management and related disclosures.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the annual financial statements and in the management report or, if such disclosures are inadequate, to modify our respective opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to be able to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements present the underlying transactions and events in a manner that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with the German Legally Required Accounting Principles.
- Evaluate the consistency of the management report with the annual financial statements, its conformity with [German] law, and the view of the Company's position it provides.
- Perform audit procedures on the prospective information presented by management in the management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by management as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with the relevant independence requirements, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, the related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the annual financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter.
